

LEGION WARRING ON ORIENTALS

PLAN BILL TO FORCE JAPS OFF STATE FARMS

Measure Now Being Written For Presentation to Next Legislature

SAN ANTONIO, Tex., Nov. 18.—A bill designed to prevent Japanese from owning or leasing land in Texas is now being drawn up by American legion executives for introduction at the January session of the state legislature, it was learned here.

American legion officials say the bill is the result of several weeks' investigation of the threatened immigration of Orientals. Land men were reported to have sold several hundred acres in the fertile valley to the Japanese, who were leaving California because of agitation against them.

A committee composed of three San Antonio legion members, appointed by the state executive commission in October, has been investigating reports of the proposed immigration and the bill is the result of their report, it was said.

The anti-Japanese bill is modeled partly after the California anti-alien land owning amendment, it was said. It carries the provision denying the right for Japanese to lease or own land for their children besides making it unlawful for the elders to possess the land, it was reported.

SHARP DROP HITS NEW YORK MARKET

NEW YORK, Nov. 18.—Another sharp decline struck the stock market at the closing today. Shipping shares collapsed during the last hour. Gains in other parts of the list were obliterated. Steel common was hammered to a new low at 80%.

URGES FARMERS TO AWAIT PRICE JUMP

KANSAS CITY, Mo., Nov. 18.—Farmers were urged to withhold their wheat, corn, cotton, wool and livestock from the market until offered prices that will cover cost of production and a reasonable profit in resolutions adopted by the national farmers' union in session here.

TIGERS MAY DECLINE PASADENA INVITATION

PRINCETON, N. J., Nov. 18.—Princeton will not accept an invitation to play in Pasadena, Cal., on New Year's day according to belief on the campus here.

The athletic board has not officially announced the receipt of an invitation.

The football season ended here last Saturday and it is believed it would be too much of a task to keep the squad in training for six more weeks and the long trip would cut too much into studies.

BIG JEWEL ROBBERY MYSTIFIES POLICE

NEW YORK, Nov. 18.—Police and private detectives today were puzzled by the reported \$400,000 jewel robbery at the home of Mrs. Charlotte King Palmer, former actress, in her home here just off Fifth avenue. The story told to the police was as follows:

Mrs. Palmer attended a dinner party in Monmouth, N. J., Monday evening with Mrs. Sidney Drew, film actress. About 9 o'clock the maid and butler, the only servants in Mrs. Palmer's house, were seized and bound by the robbers.

When Mrs. Palmer returned shortly after midnight she was attacked by the three men. They bound and gagged her. They took a \$300,000 pearl necklace and some sable furs, together with other jewelry and furs.

Shortly after daylight the butler managed to free himself. He then released Mrs. Palmer and the maid, after which the police were called.

Airplane Inventor Predicts Ocean Air Liners In 10 Years

One of the first statements made by Anthony H. G. Fokker, inventor of the plane used by Germany in the early stages of the war, on his arrival in the United States was that he is Dutch and not German. His next statement was to the effect that within five or ten years travelers will be crossing the ocean in one day for airplane. The picture shows Fokker and his wife, who are in the United States on business.

"39" BULLETINS

WASHINGTON, Nov. 18.—Secretary of the Navy Daniels is acting to stamp out hazing at the Annapolis Naval Academy with the approval of President Wilson, it was indicated today by the secretary. Daniels explained expulsion of a student from the navy academy requires the formal approval of the president before it is effective. The expulsion of the first student was so approved and Daniels expects to have expulsion of the second man approved today.

MANSUR RESIDENCE ON MAIN BEING WRECKED

Workmen this week are completing the wrecking of the old C. F. Mansur two-story, twelve-room residence, at the corner of Main and Washington.

H. H. Ballantine, of Placentia, recently bought the property.

Lumber from the house will be utilized in the building of two bungalows on the rear of the lot. The bungalows will front on Washington avenue. Ballantine later will erect a handsome residence on the corner.

The house was built in 1887, in the days of the boom, by C. F. Mansur, a pioneer banker and farmer of this city, following the sale of his ranch home at the corner of Main and Santa Clara avenues.

HOG PRICES BREAK AT MARKET OPENING

CHICAGO, Nov. 18.—Hog prices tumbled from 35 to 40 cents at the opening of the Chicago livestock market today. Prices ranged from \$10.50 to \$12.60 in the early trading. Receipts today were 45,000.

KANSAS CITY, Mo., Nov. 18.—Hog prices today broke to new low levels since December 1916. Prices ranged from \$11.35 to \$12.10, twenty-five cents lower.

MRS. J. M. COPELAND BUYS TEDFORD HOUSE

Mrs. J. M. Copeland, who sold her home on Sycamore street to the county some months ago, has purchased Ed Tedford's residence at 834 North Broadway and will take possession in a few weeks.

Mr. and Mrs. Tedford are now numbered among those who are searching the city for living quarters.

HE CRAVED HEAT
NEW YORK, Nov. 18.—Martin Fay, 43, found the subway station so cold he built a fire on the platform and went to sleep beside it. Firemen arrested the flames and policemen arrested Fay.

MOB FIRES ON PEACE MISSION PARTY, CLAIM

League Investigates Rumor of Outbreak Against Polish Conference.

GENEVA, Nov. 18.—Informal reports here that a league of nations commission interceding in the Polish-Lithuanian dispute had been fired upon by mobs near Kovno, concentrated attention today on the league council, which had appointed the commission.

There was severe criticism of the council for failure to give greater publicity to its decisions and hearings. A full explanation of the proceedings, leading to the dispatch of the commission to the Polish-Lithuanian front, was demanded by liberal delegates. They also demanded more complete statements regarding other deliberations.

The assembly organization was complete today with the naming of vice presidents and commission chairmen who will rank as vice presidents.

GOVERNMENT BUREAUS REPORT PRICE DROPS

WASHINGTON, Nov. 18.—Retail food prices decreased three per cent between September 15 and October 15, the department of labor announced today.

Wholesale food prices during October dropped eight and one-half per cent and the prices received by farmers dropped by a still greater percentage, according to figures given out by the labor and agricultural departments.

Three per cent decreases were recorded at Los Angeles and 16 other cities.

Two per cent decreases were shown in a dozen other.

Houston, Texas, was the only city which showed an increase. It was less than one-half of one per cent.

Prices declined were shown for 30 out of 43 food articles listed.

Sugar decreased 24 per cent, potatoes 15 per cent, onions 11 per cent, rice 9 per cent, steaks and meats 4 per cent and miscellaneous from 3 to 1 per cent.

BRITISH PLANNING TRADE WITH RUSSIA

LONDON, Nov. 18.—Official announcement that a Russian trade agreement will be signed soon was made in the house of commons today by Premier Lloyd George. The prime minister said the cabinet had decided to prepare an agreement in accordance with the arrangements made last July.

DEMAND PROTECTION FOR U. S. INTERESTS

WASHINGTON, Nov. 18.—Recognition of the new government in Mexico by the United States will be withheld, it was said at the State Department, until Mexico has made clear the effect to be given to Article 27 of the Mexican constitution, relating to property in Mexico.

Strong pressure for speedy recognition is being brought to bear on the department by some business and other interests, but a high official stated emphatically that no corporation, no group of corporations and no group of individuals was going to deliver American recognition to Mexico.

It was made clear that the United States was not demanding, as a preliminary to recognition, repeal of Article 27, but it was stated that if the operation of laws enacted under that section were made retroactive, the American Government could not accord recognition.

The United States, officials explained, is actuated by a desire to protect American interests in the southern republic.

Powers Plan Move To Keep Constantine From Throne

NO TIME FOR WORRY SAYS SENATOR

President-Elect Sounds Note of Confidence In New Orleans Speech

NEW ORLEANS, La., Nov. 18.—President-elect Harding will be unable to stop at Vera Cruz, it was learned on his arrival here today. Steamship officials informed Senator Harding that it would be impractical to route the vessel by way of the Mexican port.

Senator Harding had previously advised a representative of the Mexican government he would probably touch at Vera Cruz if steamship movements could be adjusted to make it possible.

Harding probably will spend a few days in Washington, D. C., immediately on his return to the United States.

NEW ORLEANS, La., Nov. 18.—Though reverses and discouragements may lie ahead, America will face them courageously and will win out, President-elect Warren G. Harding said, discussing the economic situation before the chamber of commerce.

He warned that new burdens may have to be borne, extravagances renounced, and the old lessons of thrift learned anew.

"With one hundred per cent production and minimized waste," he continued, "we may make the reconstruction and establish sure footing."

There is no reason for pessimism and despair, he said.

The senator sounded a note of confidence in America's future, although warning of the flood and ebb of good fortune.

Ascribing much of the present situation to the war's aftermath, Senator Harding said inevitably there will be readjustment.

"There are sure to be reverses, there will be endless discouragements, but a confident America will face them all with good courage," he said.

"And we will win. We may slow up a bit now and then; we may have to bend our backs to new burdens, surely we are going to be called on nationally, collectively and individually to renounce extravagances and learn anew the lessons of thrift and providence. It will add to our power and emphasis on more."

Speaking here at the gateway of Latin-America, he took occasion to urge friendly relations with all nations of the western hemisphere.

"Somehow I feel that the western hemisphere is our special field of influence and trade," Harding said. "Our trade routes by sea ought to be as dependable as our rail routes at home, and there ought to be significant and reassuring comity and concord among Americans, South, Central and North. Bind our friendship with the ties of trade and we shall make it indissoluble."

Harding also addressed an overflow meeting and later boarded the United Fruit Steamer Parismino for his Panama cruise.

"I believe the American people have come to realize that we must face momentous problems—world problems but more particularly our own problems—and must face them with resolution and courage, and practical wisdom and patriotic determination," he said. "There must be no reason for pause, no excuse for despair, nor place for pessimism."

There must come stability and dependability, we must put aside the debris of war and continue to build on solid foundations. We cannot escape all the consequences of fevered war or the unsettled conditions of its aftermath.

"The big thing for all America to realize now and always is the dignity of productive labor. No matter how humble, the producers are the makers of the essentials of civilization. There are certain fundamentals

HERE'S FIRST BABY TO BE NAMED AFTER PRESIDENT HARDING

WARREN G. HARDING FISHER. This nine-and-one half pound boy was born to Mr. and Mrs. Albert Fisher, of Cincinnati, on the eve of Harding's election as president of the United States. There was no argument in the Fisher family over a name for the youngster. Warren G. Harding Fisher sounds mighty well, his parents think.

MOB KILLS TWO MEN AND WOMAN

DOUGLAS, Va., Nov. 18.—Three negroes, two men and a woman, implicated in the killing yesterday of Peary Harper, a prominent young planter, were lined up by a mob and shot to death today.

More than a hundred and fifty men overpowered Sheriff Tanner and his two deputies as they sought to take the negroes to Fitzgerald, Georgia, for safe keeping.

The negroes were Will Perry, William Ivory and Ivory's wife. They were taken from the sheriff and several deputies while the officers were dealing with the prisoners to another town for safe keeping. A Harding said, jury late today decided the negroes died "at the hands of persons unknown."

MEXICAN STRIKERS SEIZE COAL MINES

EAGLE PASS, Tex., Nov. 18.—Strikers in the coal regions of the state of Coahuila, Mexico, have taken over the coal mines, according to reports received here today.

The situation was said to be serious with some rioting and disorders taking place.

Americans in the region were reported to have been guaranteed protection by the central government.

Mines in the Coahuila region have been on strike for several weeks. A few of the mines are reported to have been virtually ruined by water seeping in during the first days of the strike. The government had threatened to take over the mines to supply its railroad needs.

J. M. ANDRESS TO SPEAK HERE

Dr. James M. Andress, known as the greatest authority on child health and development in America, is to speak tomorrow afternoon at the First Congregational church at 2:45 o'clock. He will speak here under the auspices of the County P. T. A.

S. F. ASKS ARGENTINE COUNSEL TO REMAIN

SAN FRANCISCO, Nov. 18.—A request of the San Francisco Chamber of Commerce and other commercial interests that the Argentine government reconsider its decision to transfer Horacio Bossi Caceres, Argentine consul here, to New Zealand, has been submitted to T. A. Le Breton, Ambassador at Washington for that country, the State Department has notified the local chamber.

In a recent letter to Secretary Coker, the chamber suggested that Consul General Caceres be permitted to remain here on account of the vital part which it was said he was playing in maintaining and strengthening the trade relations between Argentina and the United States.

WEST IN COMBINE AGAINST JAPANESE

SACRAMENTO, Nov. 18.—An organization embracing all the far western states is being formed to combat the Japanese immigration invasion, State Controller Chambers announced today.

Negotiations are under way for the formation of the organization in Idaho, Montana, Utah, Colorado, New Mexico, Nevada, Texas, Washington, Oregon and California.

The purpose of the organization is to show a united front to defeat the efforts of the Japanese association which is planning a league battle against the Oriental exclusion laws of California.

BRITISH, FRENCH TO DICTATE NEW RULER OF GREECE, REPORT

PARIS, Nov. 18.—Great Britain and France will not recognize a Greek government headed by King Constantine, the French foreign office announced today.

The two countries, as guarantors of the Greek kingdom, are entitled to determine the character of the government, the announcement said.

The decision followed a rapid exchange of messages between the British and French foreign offices.

The main card in the hands of the French and British is the control of the Asia Minor situation by which Greece profited through the peace treaty. It is pointed out withdrawal of their support in these regions might result in loss of the territory to Greece.

Dispatches today told of increasing power of the nationalist movement in Asia Minor. The Greek army there is known to be pro-Venizelos and in the event Constantine were returned to power, might insist on being demobilized.

MOTOR BANDITS GET \$30,000 IN BOOZE

LOS ANGELES, Nov. 18.—Federal operatives today were on the trail of daring thieves who late last night drove away in a motor truck with twenty-two barrels of brandy and wine, valued at \$30,000.

The liquor, sent yesterday by A. Baughman of Lancaster, was consigned to the Teluca winery here. It vanished only a few hours after government inspectors had placed seals on the barrels declaring their contents solely for sacramental purposes.

PAULINE FREDERICK TO VISIT AT ANAHEIM

Pauline Frederick, famous star of stage and screen, and a company of forty actors and actresses were scheduled to arrive at Anaheim at 4 o'clock this afternoon for a stay of several days. They will film a new picture, the name of which has not been announced. Fifteen rooms were engaged at Hotel Valencia by the company.

SALT LAKE OFFICIALS VISIT IN SANTA ANA

John Cruickshank, general passenger agent, and E. W. Graham, traveling passenger agent, of the Salt Lake railway, were in Santa Ana today, in connection with making arrangements for re-establishing the railroad's local office. The office will be re-opened in about two weeks, it was stated.

NEW EXPRESS RATE HITS NEWSPAPERS

WASHINGTON, Nov. 18.—The interstate commerce commission today approved an express rate increase of one half cent per pound on short haul shipments of daily newspapers. The former rate was one half cent a pound on daily newspapers.

The new rate is one cent per pound where the first class rate does not exceed \$4.50 per hundred pounds. This increased rate does not apply where wagon delivery and special newspaper trains are used.

Approval also was given for an increase from one cent to one and one half cents in the short haul minimum rate on newspapers other than dailies.

TWO MEN DIE IN SCHOOL COLLAPSE

INDIANAPOLIS, Nov. 18.—Two men were killed and many were seriously hurt when the steel structure of a new high school here collapsed today.

Four of the twelve injured workmen were believed near death. Several were caught under the falling concrete partitions.

The accident was caused by the collapse of a large derrick on the second floor.

REPORT EX-EMPRESS IS SERIOUSLY ILL

LONDON, Nov. 18.—The former empress of Germany is seriously ill, according to a News Agency dispatch today from the Hague.

DISMISSAL FOLLOWS ANNAPOLIS HAZINGS

WASHINGTON, Nov. 18.—With the dismissal of a second midshipman from the Annapolis naval academy, Secretary Daniels today declared his intention of continuing war against hazing until the practice is thoroughly stamped out.

The dismissal of the second student was announced following a conference between Daniels and Admiral Scales, superintendent of the academy.

Whether congress will conduct an investigation of the hazing is uncertain. If the matter comes up, it will probably be in connection with the naval appropriation bill rather than by formal investigation.

CHARLIE'S EX-WIFE THROUGH WITH MEN

LOS ANGELES, Nov. 18.—Mildred Harris, with her decree of divorce from Charlie Chaplin safely tucked away, was on a Santa Fe train today speeding toward New York.

Before departing, she took occasion to deny she contemplates marriage again. "I'm too happy in being free now to tie myself up with another marriage to anyone," she said.

Miss Harris announced she expects to be back here within a month, staying in New York only long enough for a few scenes in a play, which cannot be made elsewhere.

STOMACH O. K.

Indigestion, Acidity, Sourness, and Gases ended with "Pape's Diapiesin"

Millions of people know that it is needless to be bothered with indigestion, dyspepsia or a disordered stomach. A few tablets of Pape's Diapiesin neutralize acidity and give relief at once.

When your meal don't fit and you feel uncomfortable, when you belch gases, acids or raise sour, indigestion, when you feel lumps of indigestion pain, heartburn or headache, from acidity, just eat a tablet of Pape's Diapiesin and the stomach distress is gone.

The cost is so little. The benefits so great. You, too, will be a Diapiesin enthusiast afterwards.—Adv.

GENE WATSON MEETS 'RED' MATTHEWS AGAIN

Gene Watson of Los Angeles is to meet "Red" Matthews, the prize of Anaheim, in a return bout at Brea, tomorrow night. Both boys weigh in at 135 and a fast bout is expected, as Matthews is eager to avenge his recent defeat by Watson.

Kid Neal, a promising young boxer from Santa Ana, is to meet Jack Sparr of San Francisco at 140 pounds. K. O. Swall, also of Santa Ana, is to mix with Soldier Graham, U. S. A., at 145 pounds. Mike O'Leary of Chicago and Mickey Farrell of Los Angeles are also scheduled to clash in the Brea ring Friday night.

The return bout between "Wild Cat" O'Brien of Taft and "Bebe" Florets should prove an interesting feature. Both boys are exceptionally fast, and light on their feet. They weigh in at 118 pounds. O'Brien was given the decision in their last bout, but Florets pressed him hard the entire time. This bout is expected to be a good one.

BREAKS A COLD IN JUST A FEW HOURS

"Pape's Cold Compound" Instantly Relieves Stiffness and Distress

Don't stay stuffed up! Quit blowing and snuffing! A dose of Pape's Cold Compound taken every two hours until three doses are taken usually breaks up a severe cold and ends all gripe misery.

The very first dose opens up your clogged up nostrils and the air passages of the head; stops nose running; relieves the headache, quins, feverishness, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance, tastes nice, contains no quinine—Insist upon Pape's!—Adv.

NEW PROGRAM OF ACTIVITY LAID BY C. OF C.

Development of an annual display of a character that will make Santa Ana famous, more activity in city representation, in exhibits in Southern California cities and an ever-increasing membership, are some of the features of a program which has been outlined by the directors for future activities of the Santa Ana Chamber of Commerce, following an increase in its annual income through the raising of membership dues and a big boost in membership resulting from the drive recently made.

In preparation for the greater effort in advertising and promotion of Santa Ana, the directors have appointed W. D. Green as an assistant in the office of the organization. Green's appointment was made at a meeting of the board yesterday afternoon and he entered upon his duties this morning.

He will devote himself largely to the securing of new members and relieving Secretary J. C. Metzgar of the detail work of the office.

Metzgar will give more of his time to projects that will tend to develop the industries of the city, and will be available for other work that is more important than the routine of the office.

Green has been keeping books at the Charles L. Davis garage for some months and is said to be a man very competent for the position to which he has been appointed.

306 New Names Added.

Following the completion of the records of the recent drive for membership, it was reported at the meeting that 306 new names had been added to the roll and that 104 sustaining memberships had been secured. In addition, applications of ten local residents for membership were acted upon favorably at the meeting. The new members are E. W. Allen, 313 North Main; R. J. Thompson, agent for the Crow-Eliart automobile, 411 West Fourth; P. E. Fluor, concrete foreman, with headquarters in the California National Bank building; George O. Peavey, truck dealer, Second and Bush; G. H. Christian, of Christian Brothers, Vellie agents, 321 East Fourth; J. P. Light, real estate, 501 Bush; W. H. Skelton, J. and S. Roofing, 618 Wellington; D. J. Kaler, electric supplies, 3013 North Broadway; Dr. Albert C. Zaiser, surgeon, W. H. Spurgeon building; Lloyd P. Fuller, the Toggery, 413 North Main; L. P. Lamar, garage, 319 West Fifth.

The entertainment committee, directed at a recent session of the board to arrange for a reception in honor of new members, recommended that the reception be deferred at this time and that the proposed banquet of the organization, which is expected to be the first one in the new hotel, be made the occasion for extending the recruits "the glad hand."

Boost Ad Fund. Joseph Smith and Everett A. White appeared before the board and asked its co-operation in an effort to have the freeholders include in the proposed charter a provision for a higher tax rate for an advertising fund. The freeholders have placed the maximum limit at 5 cents on the \$100 assessed valuation. Mac O. Robbins, H. E. Wahlberg and J. C. Metzgar were appointed as the committee and they will have a conference with the freeholders tomorrow evening.

A. J. Lasby was appointed by the chamber as its representative on the public health committee, created upon recommendation of the directors of the Santa Ana Red Cross chapter.

The secretary was authorized to extend an invitation to the Associated Chambers of Commerce to hold its next meeting here. December 8 was recommended as the date. The November and December meetings will be combined.

A resolution was passed favoring inclusion in the proposed charter of a provision that will make it necessary for parties planting or cutting down trees or shrubbery in sidewalk parkings to secure permit from constituted authority. The ready board at its meeting last night, took similar action.

A resolution supporting an effort of the Coachella Chamber of Commerce to secure completion of the state highway between Banning and Indio was adopted.

FARMER-LABOR PARTY POLLS OVER MILLION VOTES IN ELECTION

CHICAGO, Nov. 18.—The Farmer-Labor party polled more than a million votes for its presidential ticket, according to tabulation completed today and announced by Frank J. Esper, secretary of the national committee.

"The Farmer-Labor party is now the third party, having polled a larger vote than the socialists," said Esper.

"Our ticket was placed before the voters in only 19 states, owing to technicalities and local conditions. Had the Farmer-Labor ticket been placed on the ballot in every state more than 2,000,000 votes would have been cast."

"We are elated with the results of the election. It means the party is here to stay. Though the actual results gave us very few offices, we believe we have laid the groundwork for a successful party."

Esper said the only offices gained were two representatives and one legislator in the Washington state legislature.

HARDING PREDICTS GOOD TIMES AHEAD

(Continued from page one)

which are everlasting. Neither our own nor the world's salvation is to be worked out through any patent nostrum, through any miracle of statesmanship, through any government panacea. Government is but the agency to administer the collective, organized public service. The greater task is that of the American people themselves. It is for them, under government leadership, to meet the great test.

"Our are millions of broad acres, eager to respond to man's cultivating touch; we have an empire in millions more which are awaiting reclamation. We have a half-revealed our mines nor measured our waterpower. We are unmatched in genius and unexcelled in industry. "Our great assurance at home lies in a virile, intelligent, resolute people, in a land unravaged by war, at enmity with no people, envying none, coveting nothing, seeking no territory, striving to no glories which do not come to a righteous nation."

"This republic cannot, will not, fail, if each of us but does his part; if we but work as we have thrifty and seek that understanding which reveals mutual interest, no difficulties can long abide. We can't hope for war activities and excesses, and pre-war costs."

"There has been a wild contemplation of earnings whether in wages or dividends—in terms of dollars rather than in terms of purchasing power. We must be more concerned with the substance of reward in activity than of its coin measurements."

HOLD SOLDIERS FOR POLICEMAN'S DEATH

PORTLAND, Ore., Nov. 18.—Portland Police Officer E. Thorpe was shot and instantly killed in a battle here last night with two Camp Lewis, Wash., soldiers, who are alleged to have participated in three holdups in the city Wednesday evening.

Officer E. Thorpe was shot and barely scratched during the fight with the soldiers. Haskell A. Walters, the alleged slayer, and John Tillman, who is said to have been a party to the robberies, were later captured. Tillman, according to the police, confessed, implicating Walters.

Papers found on the soldiers indicated they were absent from Camp Lewis without leave.

An Obliging Shopman. The super-nut wandered into a shop. "I say," he said to the shopman, "could you take that yellow tie with the pink spots out of the window for me?"

"Certainly sir," replied the shopman. "We're pleased to take anything out of the window at any time."

"Thanks, awfully. It's jawly good of you," as he made for the door. "The thing bothaws me every time I pass. Goo' mawwin!"—Edinburgh Scotsman.

Local fruit men estimate the present season's orange crop in the Fresno district to be about 250 cars, crops normal, quality good.

FIGHT WILL WIN FOR POLY. IS COACH'S VIEW

"Fight will win for Santa Ana," said Coach Marvin ("Spud") Morrison today. "Fullerton may have the advantage in experience and possibly in weight, but the Oil Drillers can have no advantage in fight."

The Poly high boys will have no more scrimmages this week. Signal practice and a general polishing of plays have been the principal part of the week's work.

Although the second team held the Orange first team to a 6 to 0 score and the Anaheim first team to a 7 to 6 score recently, the importance of the second team game with Fullerton Friday dwindles into insignificance compared to the big game Saturday. "Skeeter weights" were to play at Fullerton this afternoon. The big game is the one that is stirring up the excitement at the high school now.

Reports coming from Fullerton yesterday of the game between the Oil Drillers and the Quakers at Whittier in the day before, seem to have been based on erroneous information according to reports current here today. Smith's men who merely made use of the game as a practice scrimmage, are now said to have held on to the ball for the entire period. In view of the fact that Whittier was said to have scored 20 points to Fullerton's 10, there seem to be some peculiar circumstances connected with the game, or at least with the Fullerton reports of it, according to those who expressed opinions on the matter here today.

Beginning tomorrow morning, officials at Fullerton high school will begin making reservations for Santa Ana automobilists who will witness Saturday's game, it was announced today.

C. OF C. COMMITTEE RAPS TENT HOUSES

Santa Ana should not encourage the promiscuous building of tent houses or temporary barracks on vacant lots within the city limits, in the opinion of members of the housing committee appointed sometime ago by the Santa Ana Chamber of Commerce and who have submitted their report. The committee was appointed for the purpose of investigating the house shortage situation and to recommend some plan for providing temporary housing accommodations.

The committee is composed of O. M. Robbins, chairman; Edwin McFadden, E. P. Sprague, E. A. Noe, M. R. Heninger, F. W. Slabaugh, Roscoe Wilson and A. J. Ralph. Joint meetings were held with a similar committee appointed by the Santa Ana Realty Board. The situation was thoroughly discussed in its various phases.

The report submitted by O. M. Robbins, as chairman of the Chamber of Commerce committee, to the board of directors at its meeting yesterday is as follows:

"The committee does not think that Santa Ana should encourage the promiscuous building on vacant lots of tent houses or temporary bar-

MEANS FUND TOTAL CLIMBS TO \$227

Additional contributions to the J. W. Means fund, up to noon today, amounted to \$151. This raises the total donations received to date to \$227.

Many friends and others interested in the case are contributing and it is expected that enough money will be obtained within a short time to aid the unfortunate family to a very appreciable extent. Those acquainted with the Means family have been very liberal in their donations and others, interested as a matter of sentiment, have donated generously.

Donations have been received from the following people since the publication of the list yesterday:

J. A. Becker	1.00
C. W. Wine	5.00
L. A. Newman, Val Verde	5.00
Mrs. Pearl Pee	2.50
L. L. Trickey	1.00
H. B. Pratt	1.00
Mrs. E. Trotter	5.00
Cash	4.00
C. F. Bates	1.00
W. C. Martin	1.00
C. C. Lambert, Tustin	2.00
Dr. Stuart	1.00
Louis Hilliard	1.00
Cash	3.00
W. A. Huff	5.00
Mrs. W. W. Morrison, Tustin	20.00
A. R. Morris, Tustin	10.00
A. U. Stutsman, Tustin	5.00
Mrs. Wm. C. Hoeter	1.00
Mrs. H. P. Champion	1.00
Mr. and Mrs. G. L. Champion	2.00
Mrs. M. E. Files	5.00
Miss C. Miller	2.00
J. S. Smart	5.00
Cash	25.00
C. A. Miller	5.00
Salvation Army	22.00
W. C. Dugger	5.00
M. F. Pee	1.50
Total	\$151.00

"Why does Cholly insist on taking the stairs to the billiard room? He won't use the elevator any more." "He thinks he ought to do a little climbing. He's joined an Alpine club."

Is it alive? What is it? See it in J. C. Horton Furniture Co.'s windows between 2:30 and 5:00 p. m. tomorrow, Friday, Main Street at Fifth.

FOR SALE—5 room modern house and breakfast room, garage. See owner from 6 p. m., to 8 p. m., and all day Sunday. This house off the market Monday, \$6,500 cash. 521 E. 1st.

It believes that such a solution is not only unfair to those living in homes adjacent, but such structures are unsightly and not conducive, even in our climate, to the health and comfort of the occupants, who have been accustomed to better accommodations.

"The responsibility of the community for the housing of the citizens of that locality is being studied by our best people in every section of this great and prosperous country. The problem is pressing and urgent—the solution very difficult. It is not a case of charity, it there were some way to make the building of dwellings more attractive as a financial investment, a long step would be made.

"The committee at present cannot map out a line of action that will clear the work."

YOUTHS CONFESS TRAIN HOLDUP. LOOT FOUND

OMAHA, Neb., Nov. 18.—The Burlington mail robbery in Council Bluffs, Saturday, probably the biggest of its kind in history, in which \$3,500,000 was stolen, was planned and executed by a band of boys, scarcely out of their teens.

Four of the boys have been arrested, three of them have confessed, and over \$2,000,000 of the plunder has been recovered. Only one other member of the band remains at large, officials believe. The boys under arrest are Merle Phillips, 20, Orville Phillips, 17, Fred E. Pottenger, 19 and a man named Roberts, 21. All four are residents of Council Bluffs and are railroad men. Authorities say Roberts was the "master mind" in the plot.

Orville Phillips gave himself up last night, declaring that his brother Merle, who was arrested Sunday, had nothing to do with the crime but had confessed in order to shield him. Officials say both are implicated. Pottenger, who police say is a deserter from the navy, confessed last night. He has a criminal record, police say. Roberts was arrested this morning and is still being grilled.

The securities which were recovered were found in a lake near Council Bluffs. Police were today dragging the lake in an effort to recover additional loot. The robbers are believed to have thrown the bonds in the lake when they found their escape shut off in all directions.

C. H. Glenn, postal inspector in charge of the case, was optimistic today. He said the missing loot would be recovered today.

CROOKSHANK BUYER ON LEMON HEIGHTS

Sixteen acres of Valencia oranges, together with a four-room bungalow on the place, at Lemon Heights, have been sold by F. W. Butler to C. S. Crookshank of Santa Ana.

The property is beautifully situated, overlooking the valley. It was bought by Butler five years ago.

There is a possibility that Mr. and Mrs. Crookshank and family will move to the Lemon Heights purchase. It is probable that they will "try it out" as a residential proposition for them before finally building a residence on the place. That is, they will live on the place enough to get a line on the inconveniences that may develop in getting the children to school.

The new owner will gain possession January 1.

Couldn't Wait. It is reported that the captain of a village fire brigade recently declined to call his men out to a fire because it was raining. Unfortunately the owner of the fire was too busy to keep it going till the first fine day.—Punch, London.

On Friday, Nov. 19th, at 7:30 p. m. Santa Ana Lodge No. 241 will hold a social smoker. All Masons are cordially invited, including all candidates for the year.

ROY S. HORTON, Master.

DIAZ AND CARRANZA NOW MEXICAN HEROES

MEXICO CITY, Nov. 18.—Mexico has no hall of fame in which to display her heroes—heroes who are never deemed such until they are dead. But there are half a dozen vendors of plaster of Paris statues, men who wend their way through the capital's streets, displaying their wares on the sidewalks. Not only do they set the style in heroes, as they place a new bust on the market from time to time, but they provide an interesting insight into the fickle reactions of a revolutionary public.

A year or so ago there appeared the plaster likeness of Don Porfirio Diaz, the president whose overthrow raised the nation-wide cry of revolutionary liberty. Don Porfirio's bust found a ready sale. He is a hero now. There have been many revolutions since Don Porfirio's time. The other day the statue vendors placed a new bust on the sidewalk. The face was familiar, as the original had been one of the best hated men in Mexico. There were whiskers, finally moulded in the plaster. It was Venustiano Carranza.

City and County

The Southern Counties Gas company, which serves a number of cities in Orange and Los Angeles counties, today applied to the Railroad Commission for authority to issue \$1,000,000 par value 10-year collateral trust gold bonds, the proceeds of which are to be used to make extensions, additions and improvements to the company's system. It is proposed to make an immediate issue of \$400,000 of the bonds, the remainder to be issued from time to time with the approval of the commission.

The Orange County Historical Society at a regular meeting at the Public Library Monday evening is to hear a paper by H. Clay Kellogg on "Pioneer Irrigating Ditches and Irrigation in Orange County."

W. E. Hurlburt has sold a half interest in the Sanitary Dairy to William Wiener, 519 North Birch street. Wiener had four years' experience in milk distribution service in an Iowa city.

With Art Angle, chairman of the entertainment committee, promising some surprise features for tonight's meeting of Santa Ana Post No. 131, American Legion, a big crowd is expected to be on hand when the session is called to order by Commander M. B. Wellington at 8 o'clock. A number of matters of importance to the organization are to be called up for discussion, Wellington announces.

Mr. and Mrs. J. W. Duckworth, of Anaheim, are visiting in Honolulu, having taken the trip for the benefit of Mr. Duckworth's health. Writing to a member of the Register Staff, Duckworth says that just before sailing from San Francisco Mrs. Duckworth slipped on the pavement and fell with such force as to break one of her hip bones. She continued on the journey, however, and was getting along nicely at the time Duckworth wrote.

Frank Kemp, 1008 West Chestnut street, was badly bruised about the body in a collision between the motorcycle on which he was riding and an automobile driven by an unidentified motorist at Birch and First streets at noon today.

Directors of the M. and M. Association and Chamber of Commerce are expected to attend the football game between Santa Ana and Fullerton high teams Saturday afternoon. Directors of the organizations urge that as many people as possible be present to root for the home team. The game will decide the championship of the Orange League.

A number of seats for the Oregon-U. S. C. football game Thanksgiving Day will be held for Santa Anans who desire to see the game, if they will deposit a check with Victor Walker at his sporting goods store, before 4 o'clock tomorrow afternoon to cover the cost of the number they want. Information to this effect was

MERE TEN DAYS SAVES YOUTH FROM PRISON

Because he was just ten days under 18 years of age, Ernest Neis, of Los Angeles, was today sent to the Preston School of Industry by Superior Judge Williams, instead of to the state penitentiary, after he had pleaded guilty to a charge of taking part in the theft of an automobile from J. E. Haskins, of Seal Beach, on May 23.

Neis was the first member of the trio charged with the theft of the machine to appear in court here. Emil Verges, 20, also of Los Angeles, is scheduled to appear for trial in a few days. Neis will be held here as a witness in this case. The third member of the party was a man named "Norton." He has not yet been apprehended.

Record Against Him.
Neis's record since the alleged theft of the automobile was held against him by Judge Williams, who intimated probation might have been possible had it not been for several other cases with which Neis has been connected since stealing the machine.

An investigation made by Judge Williams developed the fact that Neis and his companions went to Inyo county after stealing the machine. They are reported to have stolen several tires there. A few days later the men were arrested in Los Angeles but Neis escaped from the officers. He went to Sacramento and was arrested there when found carrying a black-jack and served thirty days of a six months' sentence for carrying concealed weapons.

After his release in Sacramento he was arrested on the Inyo county charge and was released on probation after conviction.

Court Scores Defendant.
"For a young man of your training and character you have certainly started off on the wrong foot," Judge Williams told Neis. "You were looking the penitentiary straight in the face. The automobile offense is serious enough, but your other offenses show that you were going fast in a criminal direction. You stole the tires and material after you had stolen the car. The fact that you were found carrying a black-jack in Sacramento convinces me that it is absolutely impossible for me to turn you loose on probation, no matter how good your previous record is, and no matter how much I might believe you would make good if released on this charge. A man who carries a black-jack shows that he looks upon crime very lightly."

If the finder of the package of 5,000,000 typhoid germs lost off a wagon in Philadelphia believes in "finders keepers," he is in for a lively finish. But what shall be said of the carelessness that turns loose such a bunch of trouble breeders?—Portland Oregonian.

secured by Walker today from Spaulding's Sporting Goods store in Los Angeles, when he telephoned to secure seats for himself.

I. W. Van Cleave, a barber, 405 Birch street, is in possession of a cheap light overcoat which he would like to exchange for his old black framed Pierce bicycle, which he loaned the young man, who professed to be a barber student in Los Angeles. The loan was made Tuesday, when the young man, who did not give his name, told Van Cleave he wanted to visit some friends near Tucson and would leave his overcoat as security for the wheel. Van Cleave has not seen nor heard of the supposed barber student since.

ORANGE CAFE MAN IN NARROW ESCAPE FROM DEATH IN CAR CRASH

George Andrich, proprietor of the Sunshine cafe of Orange, narrowly escaped serious injury in an auto crash near Bandini last night. His car was badly damaged when it struck the rear end of a Standard Oil truck loaded with oil well casing.

The casing protruded over the rear end of the truck and almost hid the tail light, which was said to have been very dim. The casing shattered the windshield of the Andrich car and other damage was done to the front of the machine.

Andrich claims that the fog prevented his seeing the truck in time to avoid hitting it. He also asserts that the lights of the truck were hardly discernible. The truck was standing at the side of the road at the time of the accident.

STATE PRODUCTION RECORD IS BROKEN

California's oil fields broke the record by producing 9,130,600 barrels of crude oil during September. The average daily production was 304,840 barrels. The greatest previous average daily production was during June, 1914, when the average was 302,400 barrels. September's output brought the production for the year to 76,827,560 barrels, against 76,213,959 barrels for the same period—a nine months record. In 1919, if during the remaining three months of the year, production equals September's average, and there is a good chance that it will, production for the year will be 104,258,100 barrels, which will be a record for the state. The record now is 103,623,965 barrels, produced in 1914. Breaking the 1914 records may be somewhat problematical, but that production this year will exceed that of last year—101,637,870 barrels—seems a certainty.

The increased production is due to the intensive development of the oil fields which has been going on, considerably hampered by shortage of material all year. More oil wells are being drilled today—421—than at any time since 1912.

A considerable portion of the new production comes from the field opened up earlier in the year in the Elk Hills by the Standard Oil company. This region is being actively developed and has already proved to be a most valuable and important field. Another encouraging and noteworthy development is that at Huntington Beach. This newly discovered area is also being actively drilled and it gives promise of being one of California's important oil fields.

Even with increased production, however, the gap between supply and demand is not closed and during September reserve stocks were drawn on to the extent of 275,807 barrels. The petroleum industry is still in a state of under-production, so great and growing is the demand for petroleum products.

Life is full of disappointments. Witness the Ohio woman who thought she had secretly buried her husband only to find that an unfortunate mistake had been made in identification, and that the wretch was still alive.—Los Angeles Express.

Have You Ever Worn

Every day women tell us that they never imagined a corset could be so comfortable as the R & G. And we are not surprised.

R & G Corsets have a reputation for comfort and figure-molding that dates back 40 years. The R & G has seen many fashion changes and has over and over again re-made women's figures to fit the current fashions. But never once, in all these years, has it sacrificed comfort in creating beautiful lines.

That is why R & G Corsets today still hold the leadership that they have enjoyed for nearly half a century.

Our Corset Department is supplied with a complete assortment of R & G Corsets. Find the one that fits you. There is one for your every need—from the sturdily-boned "day" corset to the little, soft, practically boneless dancing corset. Fitted with elastic sections, tricot back and many new devices, R & G Corsets will give you the beautiful lines and the comfort you have always hoped to find in a corset.

Spurgeon Bldg., Santa Ana.

150 ATTEND BIG SUNDAY SCHOOL CONVENTION

Reports from the reorganizing and nominating committees of the county Sunday School association were expected to form an important part of today's afternoon session of the County Sunday school convention at Fullerton. The sessions are being held in the Fullerton Methodist Episcopal church.

Various speakers were to address the meeting this afternoon. Among them were Rev. J. P. Honser of the First Christian church of Fullerton and Rev. C. A. Cole of Glendale. The attendance yesterday totaled almost 150. Today's attendance will greatly exceed that number, according to estimates.

Delegates at the convention were accommodated on the Harvard plan, the people of Fullerton furnishing the visitors with lodging and breakfast. Many brought lunches for noon today and ate them in the basement of the church.

The regular program is being followed in the sessions. Conferences of groups and divisions, divided according to the various phases of the work which the delegates represent, have proved very effective and helpful.

COAL PRODUCTION OUTSTRIPS DEMAND

WASHINGTON, Nov. 18.—The bituminous coal supply is outstripping the demand, production promises to reach new high records and prices continue dropping, coal mine and government officials agreed today.

While a less optimistic view is taken of the anthracite situation, the belief is expressed here that it also will recover from the effects of the recent outflow strike and right itself by the first of the year.

Officials of the National Coal Association of Operators today said the supply of bituminous coal is steadily improving and production for the present week may set a new record.

Hungary grows a wild flower which is the exact floral image of a humming bird. The breast is green, the throat yellow, the head and beak almost black.

JOHNSON'S CONTRACT WITH COMISKEY CALLS FOR \$10,000, RUMOR

It was understood here today that a contract which Ernie Johnson, who managed the Salt Lake base ball team in the Pacific Coast league for two seasons, signed with Charles Comiskey of the Chicago White Sox, calls for \$10,000.

Friends of the local baseball favorite were reticent concerning the terms of the contract, when approached today, but admitted that Johnson's signature had been affixed to the document.

Johnson has been a winter resident at Laguna Beach for the past several years.

He is one of the most popular managers in the Pacific Coast league.

PHOENIX PAIR IS HELD FOR MURDER

PHOENIX, Ariz., Nov. 18.—Accused of murder in the first degree, Victor Check and his wife, Belle, today were held without bail in the Maricopa county jail in connection with the death of Check's aged and wealthy father, awaiting their preliminary examination which is set for Monday.

Pleas of not guilty have been entered by the two.

The father, Thomas P. Check, 77 years old, formerly of Orangetown, N. J., and later of Topeka Kan., died Saturday and bruises on his body caused a suspicion that death may have been due to a beating. Neighbors supported this theory, testifying at a coroner's inquest to having heard sounds indicating Check was beating his father. One witness told of having heard blows and voices indicating that Mrs. Check was administering a beating to the old man.

The older Check, was feeble and came here in an effort to regain his health.

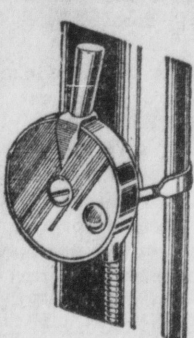

BOY DISMEMBERED

DETROIT, Nov. 18.—One train cut off the legs of Walter Frantz, 11, and almost at the same time a second train going in the opposite direction cut off his hands when he fell between the passing cars. The boy lived but a few minutes.

WOMAN IS SHERIFF

ROSCOMMON, Mich., Nov. 18.—Mrs. Jane Johnson was elected sheriff of Roscommon county on the Republican ticket. She defeated Walter Gardiner, her Democratic rival. Her husband has been sheriff during the last four years.

The last of life for which the first
was made;
Our times are in his hand
Who saith, "A whole I planned,
You shew but half; trust
God; see all, nor be afraid."
—Robert Browning.

EARNING EDUCATION

There are students who, without effort of their own, come to the halls of learning with their tuition paid and a generous fund of extra cash to spend as they wish. But ever since there have been universities and colleges to attend there have been many students, both men and women, who have earned—and are earning today—all or a good part of their tuition and other expenses. Many persons, knowing only of occasional cases of student self-support, believe that they are the exception rather than the rule. Statistics recently published by the Harvard employment office must rather surprise outsiders.

In 1919 Harvard men registered at the university employment bureau earned \$77,000, a gain over the figure of 1918, which was \$51,000. The report shows that \$42,000 was earned in term time and \$35,000 in summer work. It is quite likely that the other universities and smaller colleges could produce similar reports of the productive work of their students.

Ambitious seekers after learning are very democratic in their choice of labor. They will accept any decent task that comes to hand. They act as tutors, clerks, proctors, monitors, census-takers, choralemen, ticket-takers; they serve as carpenters, salesmen, librarians, ushers, waiters, stenographers, dish-washers, janitors, and so on through the list of possible employments.

There are persons who consider the undergraduates a frivolous being, fond of stylish clothes and a good time and inclined to be facetious about not letting his studies interfere with his college career. This criticism seems over harsh in view of the fact that so many of these young men and women are willing to work very hard, regularly or in odd hours, at any available job which will enable them to earn the necessary funds to pay for the desired education. It is well to remember, too, that good work in his studies is required of the self-supporting student.

THE ARMY BONUS

Two recent developments regarding the military bonus are contradictory. One is the big majority vote given by the people of New York state for a bond issue of \$45,000,000 to provide payments to soldiers and sailors, such payments not to exceed \$250 in any instance. It is estimated that this means a tax of \$21 on every family in the state. The other development referred to is the semi-official announcement made by leaders at Washington that no bonus legislation need be expected from the next congress.

A popular vote approves the bonus plan. The emphasis of that vote seems to suggest that the people in other states would probably take similar action if they had the opportunity. Yet it is considered unlikely that congress will approve of national action along the same line.

The two positions, however, are not necessarily inconsistent. Most people might be expected to vote for a bonus for the war veterans, out of sheer good-will without giving much consideration to the question of where the money was coming from. Those who would think of that might conclude that most of it would come out of a minority of heavy taxpayers—and therein they would be about right. Not every family in New York will pay that \$21, by any means. The average congressman is doubtless less just as liberal, and as grateful to the soldiers and sailors, as the average voter, but he has to consider more carefully who is paying the money and what effect it will have on the public treasury and the public credit. Any legislative body is likely, in such a matter, to proceed with more caution than any electorate.

PRICES DECLINE

England at last has joined the procession. Her cost of living is coming down. The war boom is over, say the London newspapers with great headlines streaming across their pages. In the last six months the average reduction in the cost of raw materials has been about 30 per cent.

The price slump turns a slight ray of hope on the English industrial situation. It wages can remain stable

tionary there for a time, while the cost of living comes down far enough so that there is some fair relation between the two, some of the industrial unrest may quiet down.

Nothing could be more cheering to the cotton growers of our South than to see England and Italy quiet for a while. For several months the English and Italian mills, natural market for American baled cotton, have not been able to take their normal amount of the raw material. The world clamors for cotton cloth of innumerable weaves, and the cotton is plenty. But the necessary processes of turning the bales into textiles have in some places almost entirely stopped.

TESTS NEEDED

How long will the public continue to allow the inexperienced or the otherwise unfit to drive automobiles? The other day in one of our cities a man turned his machine out to pass another. He got by all right, but failed to straighten up quickly enough afterwards. His car jumped the curb and killed a little baby whose mother had it out for an airing in its carriage. When the matter was investigated it was found that the driver was a novice at driving a car, lacking both the knowledge and the experience to handle his machine safely in any complicated situation.

This sort of thing will continue as long as no suitable tests are required to prove the fitness of the driver before he is allowed to operate a car in the public streets. The driver who is competent has no reason to resent such an examination; rather, he will welcome it in the interest of public safety.

The Unsocial Child

Stockton Record
Although children suffer a natural degree of shyness and a certain timidity during the formation of an acquaintance, it is usual for them to adjust their relations with other children for themselves.

When the natural desire of children for social intercourse is not encouraged or is undeveloped other children will tease them and torment them, if allowed to do so, or will have nothing to do with them.

If a child is able to assert his rights he is taken into the fold by common consent and becomes a part of the flock. If, however, he is not encouraged to overcome shyness and timidity and to assert himself these faulty traits of character become more and more marked.

The child becomes seclusive largely because of the greater opportunity afforded him to weave fancies about his insufferable lot.

Later in life the habit of introspection thus formed serves as a mental pitfall.

The wise teacher should note seclusiveness in children and the tendency of other children to leave them to this fate. If the true meaning of this is not understood, and if through sympathy she makes the mistake of encouraging a child by adopting him, as it were, as her protégé, the child soon looks upon the teacher as a substitute and clings to her as a protector and the tendency to indulge in reflections over his supposed wrongs is encouraged. Dependence in this respect will increase with advancing age until it becomes a fixed habit of infantile tendencies.

Genius and Disease

San Bernardino Record
Out of affliction has come some of the world's greatest benefits. The history of genius spread over centuries is linked with tragedies of nature. Some of our greatest inventors, thinkers and writers, the world's greatest minds have been contended with diseased bodies.

That the law of compensation works in unexpected ways is being demonstrated in California through the institution of occupational therapy classes among tuberculosis patients. In the short time they have been in vogue unsuspected talent has been discovered among those who are struggling valiantly to overcome their handicap, aided by the people who support and are the very backbone of the tuberculosis associations.

Occupational therapy is a new institution in aiding tuberculars. It takes the form of instruction classes where patients are aided in developing talents that will assist them to become self-supporting. Basketry, weaving, painting, bead work and such pursuits are taught and the products of the workshop marketed.

At the same time it takes their minds off their condition which specialists agree is a great aid to convalescence.

The showing this year among the children at the Maria Preventorium has been remarkable. Scores of novelty ornaments have been made under the direction of teachers maintained by the California Tuberculosis Association and the demand for them is growing to such an extent that many of the children are getting a tidy sum for their efforts.

The Preventorium and the classes are maintained through the proceeds of the Christmas seal sale which makes it possible to brighten the lives of hundreds of little unfortunates who have been handicapped through tubercular tendencies.

Editorial Shorts

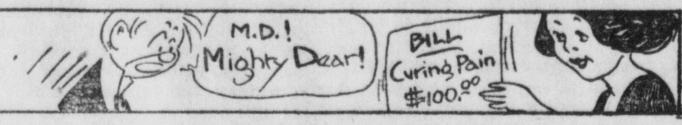

When William Jennings Bryan was tendered the Prohibition nomination for the presidency, he declined it because he owed so much to the Democratic party. It would have been far more manly on his part had he accepted the Prohibition nomination, and openly fought Governor Cox, than to fight him in a way unworthy of the once "Great Commoner."—San Francisco Star.

But in all our banking history, the most heartless fellow we knew was the paying teller who always used to say, even before he looked at the check we were going to cash, "Will you have it in ones."—New York

THE FAMILY DOCTOR

I woke up the other morning with a most decided pain, and I took my wife's warning, though it went against the grain. I called up the best physician, told of my acute condition and I gave him my permission to repair my health again. When he reached my little villa, I was plainly getting worse. I was slowly getting iller and was sure I'd need a nurse. Well, he found my tongue was coated; said my liver must be bloated; that a kidney maybe floated, till I thought I'd need a hearse. Then he said my duodenum was in awful shape, and went on to say he'd seen 'em start one's widow wearing crepe. He was very far from cheerful, and the wife soon was weeping. Then he said my lungs were fearful, and it made the wife gape. He was sure that he could fix me for about a hundred bones; temporarily he'd mix me up "some dope that cured Jones." Then, with very little hope he left me desolate and doleful with some stuff that tasted soapy, to continue with my groans. Did my wife sit and ponder how she'd look in black array? She made up her mind he'd conned her, and proceeded right away mixing some old stuff or other which she said her dear old mother once had used to cure her brother without any great delay. In about a half an hour, every pain had left me flat. Though the stuff she gave was sour, why should I demur at that? But the wife was not contented till a bill she had presented, and the total represented, bought a hundred dollar hat.

The University Tax

San Francisco Chronicle

It seems to be conceded that the University tax has been defeated. The fact that the majority against it was so small is evidence of the great esteem in which the University is held by the people who own it. The measure was not defeated by reason of any ill will to the University. It could not have been defeated in the belief that the University has money enough to carry on its work as at present organized, for all know that the cost of operating any such institution has greatly increased.

Unquestionably one objection which had weight with many voters was the fact that the measure proposed to restore the State ad valorem property tax, from which the advocates of "Constitutional Amendment No. 1" assured us that measure would relieve us for ever and ever. The corporations were to pay all the expenses of the State and the property taxes would be permanently reduced.

It is unnecessary to say that to the extent the local charters have permitted the gap created by the withdrawal of the State from the field of ad valorem taxation was promptly occupied by local taxing authorities and the promised saving was not accomplished. Nevertheless the present system has now become established and business has adjusted itself to it. The entire receipts of the corporation taxes will continue to be appropriated by the Legislature for State purposes and the proposed University tax is in addition to all other taxation.

And yet it is unquestionably the fact that the University cannot carry on the activities which it has assumed in even an approximately satisfactory manner upon its present income. It is now doing it. The mass of the student body hardly comes in contact at all with the strong and experienced heads, or

Worth While Verses

IT'S SERVICE THAT MEASURES SUCCESS.

It isn't the cut of the clothes that you wear,
Nor the stuff out of which they are made
Though chosen with taste and fastidious care,
And it isn't the price that you paid;
It isn't the size of your pile in the bank,
Nor the number of acres you own,
It isn't a question of prestige or rank,
Nor of sinew, and muscle and bone;
It isn't servants that come at your call,
It isn't the things you possess,
Whether many, or little—or nothing at all,
It's service that measures success.

It isn't a question of name, or of length
Of an ancestral pedigree,
Nor a question of mental vigor and strength,
Nor a question of social degree;
It isn't a question of city or town,
Nor a question of doctrine or creed,
It isn't a question of fame or renown,
Nor a question of valorous deed;
But he who makes somebody happy each day,
And he who gives heed to distress,
Will find satisfaction the richest of pay,
For it's service that measures success.

—The Cave Scout in Boys' Life for November.

TODAY'S TALK

By George Matthew Adams

HAND IN HAND

Co-operation is a very long word, but it expresses what the world needs above almost anything else.

Watch a great building rise. It is not the work of one man—but of scores. And the work of each and every man has to dovetail into the work of every other man—or else the building, when finished, is faulty and insecure.

The best conducted office is the one in which every worker understands—and carries out—the line of co-operation.

Elbert Hubbard once wrote a piece of wholesome advice that has walked its way around the world. This is what he said: "Get in line—or else get out!"

Either work hand-in-hand with those with whom you associate—or find a place where you can.

Where there is friction, there is great loss.

The smooth running machine is the one where every single part works noiselessly in its place.

The great press that printed this newspaper, has a thousand parts. But should any one part—no matter how small or seemingly unimportant—get out of sorts, the entire machine would immediately be affected seriously.

The trained orchestra leader knows instantly the minute that his piccolo player gets out of key!

Co-operate. Do your work hand-in-hand with the organization with which you are connected.

Learn to work and to live in the spirit of co-operation.

GLEANINGS

We learn that nearly 8,000,000 pounds of raisins were exported from Spain to the United States during the last six months. It may be they have more kick than the California variety.

Do you know that the consumption of coal has grown from one-tenth of a ton per capita in 1850 to 5.61 tons in 1917?

When a woman looks worried, says Luke McLuke, you can't tell whether it's a broken heart or a tight corset.

Out of the Ordinary. A century never begins on Wednesday, Friday or Saturday.

A Funny Slip. An Eastern man who came to California last winter was addressing a church gathering when he committed a Spenserian worthy of the old editor himself. Intending, in his speech to introduce the term "sun-kissed," he began, "Only those who come, like myself, from the bitter cold midwinter in the East can really appreciate what it is to be in this wonderful sun-kissed country."

Night School at McCormac's.

A Measure of Moral Stupidity

London Times

Dr. B. Bosanquet, in one of his books, tells us that "we are not hard enough on stupidity." Those who have suffered from it—and who has not?—will assent to this opinion. For worse blunders are caused by the perversity of foolish people than by deliberate malevolence. Stupidity, mere stupidity, hindered us greatly during the war, and it is no cynical judgment of these present times to say that many of our difficulties, religious, political and social, arise or persist from the same cause.

If stupidity were merely or mainly due to intellectual dullness we might view it without any serious condemnation. Sharp wits are not given to every man. A schoolmaster may be teased, or even baffled, by the fogged or slow brain of a pupil, but that in itself is no ground for blaming the lad. The most foolish and troublesome of his scholars may be the sharpest intellectually and the most successful in his studies. Folly is a moral rather than an intellectual obtuseness. It may exist in a quick brain, but it is never found long in the company of an honest desire to do what is right. Moral rectitude corrects the faults of intellectual dullness by bracing the will to ready perseverance. Folly always degrades and weakens men.

Much has been written on fools and their folly. Some, like Erasmus, in his "Praise of Folly," have made them the object of their mingled flouts and satire. Others, like Brandt, in his "Ship of Fools," tell us the humiliations and punishments which are inevitably their fate. But, above all other books, the Bible shows their character most clearly. Both the Old and New Testaments have much to say about fools and their folly. Nowhere else are they made to reveal their character so clearly. No other literature shows so convincingly the miserable futility of their lives. Fools show themselves in strangely different guises, but apparently they never succeed ultimately in hiding their stupidity. They are so foolish that they never recognize the fact, and it is this which brings them at last to their own destruction.

There is the stupidity of the fool who fails to realize moral distinctions. He confuses good and evil mistakes falsehood for truth, and prefers the spurious metal of present gain or pleasure for the pure gold of true happiness. He has lost the sense of values. It is his habit to make special moral judgments in his own favor. He does that which in others he would condemn without restraint, and then invents a casuistry by which he confidently approves his action. He never looks beyond the present. He has no perspectives. He lives in the half lights of his own mean desires or passions, and sees nothing clearly. He lives on lies till at last he cannot discern the truth. Thus he perishes morally in his foolishness.

Yet the fool may have his wisdom. The worldly-wise man knows what the world is and how to make it serve his own purposes, boasting that he knows all that is worth knowing to secure success. He sets a high value on the quality which wins the world's prizes. Judged by his own standards he is justified. He finds what he seeks, but he is afflicted by a shallowness of heart and mind which allows no seed of goodness or depth of sympathy to appear in him. He sets his heart on the riches and pleasures of this life, forgetting all the while that they never will stand by him in the day of his distress. Since he has never shown disinterested affection he will never look for it in others. He thinks himself to be too wise to believe in its existence. Money, pleasure, reputation, are his aim. He may succeed, but only to find that they first befoul and then miserably betray him.

He that doth love, and love amiss! This world's delights before true Christian joy.
Hath made a Jewish choice;
The world an ancient murder is;
Thousands of souls it hath and doth destroy.
With her enchanting voice.

Value of Advertising

Fourth Estate

Advertising enlightens the world. It is educational. It cannot help being. Its job is to tell the public things it pays to know, say, the Ad-Route.

Take talking machines, for instance. They did not mean, much in our lives until advertising took hold and showed how they brought new entertainment into the home.

Take automobiles. More than half the average man's knowledge of them and what they will do for him comes straight from the ads.

Take kitchen cabinets, adding machines, ready-made clothing, alarm clocks, health foods, floor varnishes. Take any modern improvement of a standard utility.

Advertising introduced them. Advertising educated us to them. And the man who did not know about talking machines and automobiles and the rest would not be an educated man.

Sometimes advertising is frankly educational, without trying to sell. Both sides are finding that adver-

THE SOCIAL MIRROR

Riggs-Kelly Party
at the Riggs Home

A balmy, perfect California after-
noon, and a wealth of roses and
greenery, made a setting for a stun-
ning bridge afternoon yesterday, at
the home of Mrs. Charles A. Riggs,
on Spurgeon street, when Mrs. Riggs
and Mrs. Charles S. Kelley acted as
joint hostesses to about fifty guests.

Twelve tables were used for the
game, and pink and white were the
colors carried out in the dainty
things to eat. At the close of the
afternoon, Mrs. John Tabbs was
awarded the first prize, and Mrs. W.
E. Winslow second consolation go-
ing to Mrs. Sherman Stevens.

Charivari for Newlyweds.
Mr. and Mrs. Emmos Amos, of
Orange, who were recently married,
received a surprise visit last night
from about twenty-five of their Santa
Ana friends, who staged for their
benefit an old-fashioned "charivari."
Great excitement and considerable
noise was produced by the visitors
before the bride and groom, in the
usual manner, prevailed upon them
to return to their own homes. Mrs.
Amos was formerly Miss Amanda
Krans of Santa Ana.

Whist Party for Visitors.
Mrs. Charles Borchard of Fairview
entertained a group of friends Tues-
day evening, honoring her cousin,
Mrs. Hamman and husband of Chil-
dren, and Rudolf Haidt, who ar-
rived recently from Europe, to make
his home in California.

The guests played whist at four
tables, which were gayly decorated
with holly sprigs. Dainty refresh-
ments were served. Mrs. George
Young was awarded first prize, and
Mrs. Hamman consolation.

Receive News of Birth.
News has been received here of
the birth of a son, on November 16,
to Mr. and Mrs. Rodney F. Atsatt,
Berkeley, California. Mrs. Atsatt
is well known here, as she was form-
erly Miss Georgia Smith, daughter
of Mr. and Mrs. George S. Smith.
The son, is to be named Stuart Fre-
mont Atsatt.

Woman's Club Meets.
An interesting meeting of the
Woman's Club was held at the home
of Mrs. Katherine Clark, on Tues-
day afternoon.

The rooms were cheery and bright,
with sprays of holly centering the li-
brary table, and beautiful chrys-
anthemums adorning the piano. After
the regular opening program, Mrs.
Frank Finney and Mrs. Nash gave
the program for the afternoon.

Mrs. Finney had chosen for her
reading a fine paper by Dr. Frank
Crane, entitled: "Ten Ways to Test
the Finesses of a Man." She gave
a very lucid and refreshing ren-
dition of the article.

A communication was read from
Mrs. I. D. Mills of Orange, inviting
the club to hold the next social meet-
ing at the home on Tuesday, Novem-
ber 30. This invitation was accept-
ed with thanks.

Mrs. G. B. Lammie then read a
quaint little rhyme entitled, "Inspira-
tion."

Neighbors of Woodcraft.
The regular meeting of the Neigh-
bors of Woodcraft will be held to-
morrow evening at the G. A. R. hall.
All members are requested to at-
tend, as the Grand Master, Mrs.
Marshall, of Portland, Oregon, will be
present.

Mr. and Mrs. Geo. W. Ross and
daughter, 1502 North Flower street,
entertained a few friends over the
week-end.

The list of guests included Mr.
and Mrs. K. P. Hutton of Montreal,
Canada; Miss Frankie Curtis of New
York; Miss Margaret Kunny and
Messrs. E. Curtis and Stanley Ham
of Los Angeles.

What is it? Ask J. C. Horton; it's
got him mystified, too. See his win-
dows Friday afternoon between 2:30
and 5:00, Main Street at Fifth.

FAIRY DANCING.

"O for the fairy dancing,
On the hills of the autumn
moon,
All up and down the paths that
sway
In the silvery light a-swoon!
For now in the blue November,
When the night is a night of
gleams,
The fairies dance in the old
romance
Of the mist of the magic
dreams."

Powell-Thornton

On Wednesday afternoon at 3:30,
a quiet wedding was held at the Re-
organized Church of Jesus Christ,
corner Fifth and Flower street.

The young couple were Henry J.
Powell, a popular railroad fireman
on the Southern Pacific railway, who
resides at 590 K street, Colton, and
the bride, Miss Gladys E. Thornton,
formerly of Rialto, Calif., and later
a resident of Huntington Beach. She
is the daughter of Mr. and Mrs. Ar-
thur Thornton of that city. The
ceremony was performed by the pas-
tor, Rev. G. H. Wixon, who was a
life-long friend of the bride's par-
ents.

In addition to the bride's parents,
the ceremony was witnessed by
Misses Phyllis and Marie Mitchell of
this city.

The happy couple returned at
once to their new home at Colton,
where they will be pleased to meet
their many friends.

Sons of Veterans.

An interesting meeting of the
Sons of Veterans was held in G. A.
R. hall last night. General Order
No. 6, from Department Commander
Hyden, in which he stated that
President-elect Harding is a member
of the Sons of Veterans, was read.
An invitation from Camp No. 2,
Sons of Veterans of Los Angeles, in-
viting members of the local post to
attend the Veterans' night celebra-
tion on November 19, was received.
Following this, plans were discussed
for the big special "Get Acquainted"
meeting, which is to be held on the
evening of Wednesday, December 1.
All Sons of Veterans and grandsons
over eighteen years, whether mem-
bers of the order or not, are invited
to be present at this meeting. There
will be plenty to eat, a short pro-
gram and a general good time. The
secretary is anxious to obtain the
names of all such persons, and those
asked kindly to hand their names
and addresses to L. A. Ludwig, 318
East Fourth street, (Phone 241-W),
and personal invitations will issue.

Church Shower by Ladies Aid.
The Ladies Aid Society of the
First Christian church was the host-
ess last night, to the entire mem-
ber-ship of the church. The affair was
in the nature of a shower, in order
to secure more dishes and silver to
be used by the ladies in the dining
room of the Community house.

More than two hundred invita-
tions were accepted, and each person
brought a treasured gift. The Com-
munity house had been beautifully
decorated with marigolds under the
direction of Mrs. A. W. Gerrard.

The reception committee was com-
posed of the following:
Mesdames I. L. Erisendine, W. N.
Hamilton, C. L. Johnson, L. Crasher,
and T. J. Lewis.

These ladies met the guests with
slips of paper, bearing the name of
each guest, which were pinned upon
each one, thereby making it unneces-
sary to introduce each person.

A line of children was formed to
receive the package from each guest.
Those in line were Frances McArter,
Lillian Napier, Elinor Mitchell, Fran-
ces Wickesheim, Evelyn Gaines and
Charles Knight.

The program was in charge of Mrs.
F. T. Porter, wife of the pastor, Rev.
Porter opened the evening with pray-
er, and a delightful musical program,
rendered by the Sunday school or-
chestra, under the direction of Paul
E. Wright, was presented. A pret-
ty song selection was given by Mrs.
Raymond Mayer. Then followed a
xylophone duet by Lorraine Porter
and Veda Mitchell.

A piano number was given by Glen-
da Waggoner and Mrs. Cole.
Two songs composed by Mrs. Por-
ter were beautifully sung by Miss
Venus Remison. Readings by Mur-
rell Rash and Eva Taylor were much
enjoyed.

A tableaux, in two scenes was well
presented by Mrs. O. D. King. It
was entitled, "The Flight of Time."
After the program, refreshments
of apples, cluster raisins and candy
were served.

Mrs. T. D. Knight, at the close of
the evening, thanked the company
for the lovely gifts and extended a
cordial invitation to all present, to
attend Wednesday evening, January
23, 1921, with the Aid Society, at the
Community house.

Economic Club to Meet.
An all day meeting of the Sixth
Section of Household Economics of
the Ebbl will be held tomorrow af-
ternoon at the home of Mrs. H. M.
Sammis, 216 East Washington street.
There is much work to be finished
for the day nursery, the secretary
has announced, and all members are
urged to be there early and be pre-
pared to sew.

MEN SCORN BALLOT
WHEN WIVES WIN IT

NORTH BALTIMORE, Ohio, Nov.
18.—There is one little village in the
United States where men did not
vote and where women swung the
election to Senator Warren G. Hard-
ing. It is located just three miles
east of here and is called Bairds-
town.

For years, tradition runs, Bairds-
town has been "rank" Democratic.
In fact, no records show that it vot-
ed any other way.

But this year it was different. The
women voted and the old men, "sore"
because their wives received the
ballot, did not go to the polls. The
women favored Harding by a 33 to
23 vote. Now many of the homes in
the village are "broken up," it is
said.

Entertains Jolly Eight.

Mrs. George W. Young was hostess
to the Jolly Eight club yesterday af-
ternoon at her home on North Main
street, substituting for Mrs. J. C.
Candebat, who has left here to go to
Havana, where her husband will be
employed.

The time was pleasantly whiled
away with whist and social chat.
Mrs. George Lester winning the
prize, a pound of Rough House
chocolates, which she graciously
shared with her less fortunate com-
panions.

Mrs. Young served cheese straws,
olives, cream pie, chocolate and
mints before her guests departed,
expressing their thanks to her and
her absent hostess for the de-
lightful hospitality.

The club will meet once more be-
fore the holidays to make Christmas
arrangements and receive new mem-
bers to take the places of those who
have dropped out.

Fraternal Aid.

It report that the Fraternal Aid
society would meet tonight was er-
roneous. The meeting will be held
tomorrow night, beginning at 7:30.

Daughters of the Confederacy.

The Daughters of the Confederacy
will meet Saturday afternoon, No-
vember 20, with Mrs. James W. Mur-
ray and Miss Margaret Laeger at 801
East Fourth street. Visitors who are
interested will be welcome.

Southern
California

PASADENA—With tales of kill-
ing two deer with one bullet and
of frightening his campmates with
a phonograph spook recital, Jack
Mathews, maître d'hotel of the Green
dormitory at the winter season, returned
here. He has been assistant manager
of Tahoe Tavern during the summer.
After the close of the season there,
Mathews remained at Tahoe for a
hunting trip with Stewart Edward
White, the author.

LOS ANGELES—Reckless automo-
bile driving on San Fernando boule-
vard cost Juan Hernandez of San
Fernando a \$100 fine in Police Judge
Richardson's court, besides a large
repair bill. His car was more dam-
aged than the machine stuck T. A.
Arivata, who was with Hernandez,
was fined \$30 for being drunk. The
prosecuting witness was Officer H.
L. Vary, who patrols the valley.

SAN DIEGO—James William Buel,
journalist, author and editor, whose
name appeared on the title pages of
fifty-four works, some of which con-
tained from ten to fifteen volumes, is
dead here. His books covered a wide
range, from "Legends of the Ozarks"
to a work on the history and mythol-
ogy of music. His compilation of sto-
ries of the Bible is said to have
reached a sale of more than 1,300,000
copies. Mr. Buel, who was born in
Goicoinda, Ill., in 1849, came to this
city in 1908. He was graduated from
the University of Illinois.

PASADENA—Mrs. T. J. Duff, miss-
ing for two weeks, and against whom
a charge of abandonment of her
children was sworn out by her hus-
band, has been heard from. In a let-
ter from Los Angeles, but which does
not disclose her exact whereabouts,
the woman states her intention of
not returning to her husband. She
states, however, that she will soon
be back in Pasadena to obtain pos-
session of one of her three small
children, whom she left with their
father when she disappeared election
night, following a quarrel.

EL CENTRO—Sheriff Charles M.
Appelstall has returned from Fresno,
where he had a narrow escape from
death when the auto in which he was
riding collided with another on the
State highway near that city. At-
torney C. B. Conolly, who was with
him, was so badly injured that he is
still in the hospital at Los Angeles,
but all question of doubt as to his
recovery has been removed and he
hopes to be back in El Centro
within a week or ten days.

REDLANDS—The home of Rollo
Whitman, 330 Chalon street, was en-
tered late yesterday afternoon or
early in the evening. Boys are sus-
pected. The fact that chairs had
been left under lights, apparently
by children turning on the lights,
convinced the officers that burglary
was the work of juveniles. Small
articles were seen.

GLENDALE—At the last meeting
of the board of trustees of Glendale,
Judge Lowe submitted a report of
cases handled in his department dur-
ing the month of October, covering
151 hearings, most of which were
trials of persons arrested for spee-
ding, and fines totaling \$625. The

PERSONALS

Mr. and Mrs. Leon W. Lauderbach
and children, Leona and Leon, Jr.,
and Mrs. Gordon, all of Ithaca, Mich.,
arrived yesterday in Santa Ana to
spend a year at the home of Mr.
Lauderbach's parents, Mr. and Mrs.
Leon B. Lauderbach, 1895 Spurgeon
street.

Mr. and Mrs. Henry A. Glass, of
Chico, Texas, passed through Santa
Ana, yesterday, for a brief visit with
friends here. Glass was for many
years the local manager of a tele-
phone company at Riverside, and has
numbers of friends in Orange coun-
ty. Mrs. Glass before her marriage
was Miss Beattie Thompson, of Riv-
erside. They expect to visit for
some weeks with her parents before
returning to Texas.

Mr. and Mrs. J. W. Shields have
returned from a two months' trip
in Kansas, Texas and other states.
Most of their stay was among old
friends and relatives in Texas.

Mr. and Mrs. Archie Gorton of
Hottell, Mich., recently came to San-
ta Ana to enjoy the beauties of cli-
mate and scenery of Orange county.
They have bought a house at 309
West Eighteenth street.

Guy J. Gilbert, general agent for
the Lincoln National Life Insurance
company, will entertain the Orange
county agents of the company this
evening at James's with a 6 o'clock
dinner.

Income from the source has been
fluctuating between \$600 and \$800
per month, and yet the city has but
one traffic officer.

EL CENTRO—The county board of
supervisors opened the bid of Os-
wald & Co. for Seelye paving. The
bid was for four-inch concrete and
was 33 1/2 cents a square foot. The
paving to be done is at the request
of the Seelye people. The bid was
deemed excessive and for that reason,
upon motion of Supervisor
Brooks, was rejected by a unanimous
vote.

LOS ANGELES—Announcement
was made of a proposed million dol-
lar hotel that is being planned in
Hollywood. It will be located in
Laurel Canyon and contain 250
rooms. In addition to the main
structure a number of bungalows
will be constructed on the hotel
grounds. The main building is to be
from four to seven stories high and
constructed of reinforced concrete.
The roof will be of tile. Harwood
Hewitt is the architect and Johnson
Daugh the agent of the new hotel.
The names of the men financing the
project were not revealed.

ACTON—An exceedingly rich
strike is reported at the mines of
the Mt. Gleason Mining & Milling
company near here. The ledge ap-
pears to be unusually heavy gold
quartz. Samples taken to the com-
pany's headquarters in Los Angeles
are claimed to assay more than \$500
per ton.

CARPINTERIA—Rapid progress
is reported in the handling of this
year's walnut crop. The Carpentaria
house expects to get nearly its en-
tire lot in the first pool, eleven cars
having been shipped from here Satur-
day. The Santa Barbara house is
said to have shipped the same
amount. Many of the growers had
their entire crop in the warehouse
before the last rain.

LOS ANGELES, Nov. 18.—That

the magnificent ranch property of
S. B. Wright in Swartout valley well
up in the mountains, northwest of
the city, may be acquired by Los
Angeles county as the initial unit in
a great mountain playground is an-
nounced by the board of supervisors
of that county. Along with the
Wright property it is also proposed
to purchase the Big Pines ranch of
600 acres, the Wright property com-
prising 1100 acres.

PASADENA—Following custom,
the Tournament of Roses association
is to hold a big banquet at Hotel
Maryland the evening of November
23 to enlist the support of all South-
ern California in the big annual New
Year's fête. Invitations are being
sent to municipal and commercial
body representatives and also to the
editors of all Los Angeles and other
leading papers of the southland.

At the banquet President W. L.
Leishman of the Tournament associa-
tion will outline the plans for the
1921 event. About 350 guests are ex-
pected at the dinner.

LONG BEACH—Francis L. Car-
penter, 27, has started on his way
to Boulder, Mont., in the custody of
Sheriff J. D. Locker of that city. On
the same train Mrs. M. E. Quinn
and her 16-year-old daughter, Mrs.
Katherine Quinn Carpenter, were
passengers. After Carpenter had re-
ported to local police three weeks
ago that his bride had been kid-
naped, it was learned by the police
that Carpenter was wanted in Mon-
tana for the alleged theft of his
father-in-law's automobile and that
his bride's parents had been anx-
iously striving since August to as-
certain her whereabouts.

REDLANDS—City trustees of
Redlands decided to increase the
business license tax to meet the ad-
ditional police and fire department
expenses recently incurred at the
request of the Merchants' associa-
tion.

Legal Notices

ORDINANCE NO. 655
An Ordinance of the City of Santa Ana, California, amending Ordinance No. 625 by adding a new paragraph to Section 25 of said ordinance as the same was adopted and approved on the 15th day of May, 1917, and providing for the closing of openings through floors of any building for chimneys, plumbing, water pipe, gas pipe, vent pipe, hot air pipe, or for other purposes.

The Board of Trustees of the City of Santa Ana, California, do ordain as follows:
Section 1. There is hereby added a new section to Building Ordinance No. 625, adopted and approved by the Board of Trustees on the 15th day of May, 1917, adding a new paragraph to Section 25 thereof.

Section 2. That it shall be unlawful for any owner or owners or architect, plumber, carpenter, mason, lather, plasterer, contractor, sub-contractor, or other person in the line of or construction of any building to permit any opening or openings through any floor of building, for chimneys, plumbing, water pipe, gas pipe, vent pipe, hot air pipe, or for any other purpose to remain open or unguarded, or to be covered by sheet iron or galvanized mesh in such a manner that the openings shall be covered with at least one inch of good mortar.

Section 3. Be it further provided, that all hot air pipes shall be surrounded with at least one inch of mortar and extending two inches above said openings.

Section 4. Any person, firm or corporation, who violates the provisions of this ordinance shall be guilty of a misdemeanor and upon conviction shall be fined in the City Jail for not more than ten days.

The City Clerk shall cause this ordinance to be published three times in the Santa Ana Daily Evening Register, and the ordinance shall be in force from the date of its publication in the City of Santa Ana, California.

SAY BIG TAXES DUE TO LOCAL DEMANDS

That local demands for school improvements and school salaries and for road work are largely responsible for a lot of climbing that taxpayers have found evidenced in their tax bills was declared today by the Board of Trustees.

There has been a greater number of "kicks" on taxes this year than ever before was also declared by the county officials.

Increase in assessments, together with a big jump in the tax rate of the county, has resulted in increasing the taxes of nearly all taxpayers.

There have been two or three delegations from the north end of the county who have been at the courthouse recently making investigations into the tax situation.

Salaries Remain Same

A lot of taxpayers have come to the courthouse with an indefinite kind of an idea that county officials are getting bigger salaries. As a matter of fact, the salary schedule of elective officers and their deputies at the courthouse has not changed during the upward trend of the high cost of living.

Those who have been making inquiries have been told by the county officials that practically all of the increased tax receipts will go to just three things, roads, schools and bridges.

The fact that the dollar will not buy as much material for the county now as it did a year or two ago is often pointed out.

Taxpayers have been informed that the county records show that Fullerton Union High school is operating at an annual cost of \$460 per pupil, Orange, Anaheim and Huntington Beach about \$200 each per pupil and Santa Ana \$160 per pupil.

The number of inquiries concerning the tax changes were coming in so fast from the north end of the county to the office of County Assessor James Sleeper that a conference of taxpayers was held at Fullerton, with Sleeper as the guest to answer questions.

Sleeper explained that his office makes assessments on value. His office has nothing to do with the fixing of the tax rate or the spending of the money.

Sleeper Cites Facts

"I have known of the board of supervisors having visits many times from delegations from organizations that were asking for more expenditures," said Sleeper. "But there have been mighty few delegations asking for changes that mean less expenditure for the county."

Sleeper warned the north enders that the time may not be far distant when the easy money that the county has been getting through assessments values placed on oil companies will no longer be available.

He said that in the past year the production in the Murphy field had fallen 2,000,000 barrels and Sleeper believes this year's decrease in that field will go closer to 3,000,000 barrels.

At the meeting, L. S. Plummer of the Fullerton school said that this year \$200,000 is being raised by direct tax with the idea that the oil companies while producing would have to help pay for it.

Sleeper showed that the greater portion of the taxes paid from around Fullerton comes from oil companies. The oil companies, he said, pay \$123,619 for the high school while all other properties pay only \$53,320.

The oil companies pay \$127,650 and all other property owners pay \$53,320.

Gives Plain Statement

The conference resulted in Sleeper giving a plain statement of exactly where all the money paid in by the north end comes from and to what fund it goes.

He showed that by far the largest part of the taxes paid by Fullerton people was upon local demands, made by school boards, city trustees and supervisorial representation.

The north-enders who met Sleeper were S. W. McCulloch, F. C. Krause, R. A. Marsden, F. M. Dowling, L. E. Plummer, C. R. Allen, George Watson, Roy Davis, Robert Strain, L. B. Steward, Charles Thamer, Perry Woodward, William French, W. C. Heffern, R. F. Brown and R. S. Gregory.

Notice of Publication of Time of Proving Will, Etc.

In the Superior Court of the County of Orange, State of California.

In the Matter of the Estate of Caroline W. Hox, deceased.

Notice is hereby given that Friday, the 26th day of November, 1920, at 10 o'clock a. m., of said day, at the Court room of this Court, Department No. 2, in the City of Santa Ana, County of Orange, State of California, has been appointed as the time and place for hearing the application of Frank W. Hox, praying that a document now on file in this Court, purporting to be the last Will and Testament of said deceased, be admitted to probate, that Letters Testamentary be issued thereon to said Frank W. Hox, and that all persons interested therein may appear and contest the same.

Dated November 15th, 1920.

J. M. BACKS, County Clerk.

S. M. DAVIS, Attorney for Petitioner.

J. M. BACKS, County Clerk.

OBEEDIENCE IMPORTANT TO GOD, EVANGELIST TELLS HIS AUDIENCE

Evangelist Albert C. Fisher, speaking at the First Methodist church on prayer, this morning, said, in part:

"When a child cries for a can of lye because it sees the red label on it, the mother does not give the can to the child, but attracts and satisfies with something better."

"If we abide in Christ as obedient children of God we can ask what we will, and God will satisfy us. He purposes to give heart satisfaction. The branch in the vine has no independent life. It is as natural to the vine as the leaf is to the branch. The vine cannot blossom and come to fruit without the branch. Our obedience is important to God."

"The experience of continuous answers to prayer upsets all the philosophies of prayer. The partner ship of prayer means success. There can be no failure so long as the branch abides in the living vine."

During the six months, Mrs. Smith and Mrs. Turner have spent 416 hours among the sick. They have conducted 130 street meetings and 166 meetings in the tent on Sycamore street.

Meetings at the county jail have been held every Sunday, and the County Hospital has been visited frequently by the Salvationists.

At the present time the Salvation Army is in dire straits for a meeting place. The tent on Sycamore street served very well during the summer months, but it cannot be used during the winter.

Rain leak through the ground underfoot is wet, and it is impossible to keep the tent warm. Alex. Brownridge, secretary of the Orange County Salvation Army Advisory board, is co-operating with the Salvationists in an effort to find a meeting place.

The housing shortage seems to have no terrors for the chronic jailbird.—Sacramento Bee.

In addition to several high navy department officials the congressional party includes:

Senators J. L. Ball of Delaware; Medill McCormick of Illinois; Henry W. Keveland of New Hampshire; Roy Pittman of Nevada and Thomas J. Walsh of Montana, and Representatives Patrick H. Kelly of Michigan; Fred A. Britten of Illinois; Frederick C. Hicks of New York; Lemuel P. Faggett of Tennessee, and Daniel J. Rigney.

May Visit Here Again

Two or three of the committee members have seen Newport harbor during previous visits to the coast, and it is expected they will be interested in seeing the improvements which have since been made by the City of Newport Beach and the County of Orange.

Wallace's letter cited the various bond issues voted by Newport Beach and by Orange county in connection with the harbor improvements. The latest census figures, giving the population of Newport Beach at 812, were also included. In mentioning the county, its area, 720 square miles, and the annual production, valued at \$100,000,000, were given. The fact that one-half of the county's half million dollar bond issue has already been spent on the harbor was forcibly brought out in Wallace's letter.

Invitation Urgent

The letter closed with an urgent invitation to the congressional investigation committee to spend at least one day as guests of the harbor commission to consider the possibilities of Newport harbor.

NEW YORK, Nov. 18.—Wholesale swaps, denier and trades may be expected in the big league circuits as soon as three managerless clubs get a boss.

The Detroit Tigers, St. Louis Browns and the Boston Braves have not announced their new management but it may come now any day since the war is over.

Clarence R. Ruland is considered Frank Navin's choice as successor to Hugh Jennings. Lee Pohl, former manager of the Indians, is being talked of to take the job of Jim Burke in St. Louis, and Fred Mitchell, deposed leader of the Chicago Cubs, is considered as sure of George Stallings' place on the Braves bench.

Practically every team in both leagues needs a plug in some weak hole. The Cleveland champions are sadly in need of a shortstop and if the rule against spitballers is not rescinded, Speaker will need a couple of pitchers. The Brooklyn National league champions would like to have a third baseman and a catcher or two.

Before Manager McGraw left for Cuba, he said he needed a good second baseman as Larry Doyle is definitely through, and also would like a good center fielder.

The Yankees said to have bought Joey Dugan from the Athletics to take Pratt's place at second. Wally Pipp is due for a change in some kind of a trade and Babe Ruth probably will be tried at first base with Bob Meusel.

Coskies needs practically a whole team in Chicago and some trading activity is bound to come, as the magnates have agreed to give him help. The Cubs are not well off.

Every team needs some kind of a change and since the political fight is over and the managers have a free rein to go out and trade, the winter stovepipe league will have plenty to watch during the off season.

FORMER GOVERNOR DIES

SOUTH ORANGE, N. J., Nov. 18.—J. Franklin Fort, 68, Nov. 18, died at his home in South Orange, N. J., of New Jersey, is dead. Fort resigned a year ago from the federal trade commission, to which he was appointed by President Wilson. He served as governor of New Jersey from 1908 to 1910.

The success of our National Merchant Marine will be in proportion to the interest and co-operation of every citizen.

WHOOPING COUGH

No "cure"—but helps to reduce paroxysms of coughing.

One heavy scarf.

A certified check of 5 per cent of bids must accompany each bid.

The Board of Trustees reserves the right to reject any and all bids.

E. L. VEGELY, City Clerk.

MANY GIVEN HELP BY SALVATION ARMY

In the past six months the Salvation Army through its relief station on East Third street has furnished free lodgings to men 240 times and has furnished free 232 meals to men who were in financial straits.

These figures are taken from a report of the work done by the Salvation Army in Santa Ana during the last six months. The report, issued today, is signed by Mrs. B. C. Smith, adjutant, in charge of the Salvation Army work here, and Mrs. A. Turner, ensign, assistant.

The report shows that 480 garments and 126 pairs of shoes have been distributed free through the relief store. Employment has been found for 262 men and 46 women.

During the six months, Mrs. Smith and Mrs. Turner have spent 416 hours among the sick. They have conducted 130 street meetings and 166 meetings in the tent on Sycamore street.

Meetings at the county jail have been held every Sunday, and the County Hospital has been visited frequently by the Salvationists.

At the present time the Salvation Army is in dire straits for a meeting place. The tent on Sycamore street served very well during the summer months, but it cannot be used during the winter.

The Cleveland champions are sadly in need of a shortstop and if the rule against spitballers is not rescinded, Speaker will need a couple of pitchers. The Brooklyn National league champions would like to have a third baseman and a catcher or two.

Before Manager McGraw left for Cuba, he said he needed a good second baseman as Larry Doyle is definitely through, and also would like a good center fielder.

The Yankees said to have bought Joey Dugan from the Athletics to take Pratt's place at second. Wally Pipp is due for a change in some kind of a trade and Babe Ruth probably will be tried at first base with Bob Meusel.

Coskies needs practically a whole team in Chicago and some trading activity is bound to come, as the magnates have agreed to give him help. The Cubs are not well off.

Every team needs some kind of a change and since the political fight is over and the managers have a free rein to go out and trade, the winter stovepipe league will have plenty to watch during the off season.

FORMER GOVERNOR DIES

SOUTH ORANGE, N. J., Nov. 18.—J. Franklin Fort, 68, Nov. 18, died at his home in South Orange, N. J., of New Jersey, is dead. Fort resigned a year ago from the federal trade commission, to which he was appointed by President Wilson. He served as governor of New Jersey from 1908 to 1910.

The success of our National Merchant Marine will be in proportion to the interest and co-operation of every citizen.

WHOOPING COUGH

No "cure"—but helps to reduce paroxysms of coughing.

One heavy scarf.

A certified check of 5 per cent of bids must accompany each bid.

The Board of Trustees reserves the right to reject any and all bids.

E. L. VEGELY, City Clerk.

BRITISH LABOR IN CAMPAIGN TO AID CAUSE OF IRELAND

LONDON, Nov. 18.—The labor party today began bestirring itself in behalf of Ireland.

A manifesto was issued condemning the British administration of Irish affairs. The manifesto received close attention in high government quarters.

The labor party in this manifesto, advocated quick withdrawal of British forces from Ireland. It urged self-determination for that country even if a republic should be formed there. A committee was appointed to visit Ireland and conduct "a great campaign of public enlightenment."

Arthur Henderson, labor leader, was appointed chairman of a commission to make an investigation into the origin and nature of reprisals. This commission will go to Ireland November 23.

The laborites received unexpected assistance from the Church of England. Seventeen bishops subscribed to a resolution urging cessation of "military terror" in Ireland.

Clyde Plavan Buys Greenville Acreage

Clyde A. Plavan, son of Mr. and Mrs. F. D. Plavan, has completed negotiations for the purchase of sixteen acres of land from "Doc" Ellis at Greenville. The property is located on the boulevard, about half a mile west of Greenville.

Plavan had the place under lease last year. He will plant it to beans or beets the coming season.

All large American ports are planning great improvements in channels, wharves and increased cargo handling facilities.

PACIFIC STORMS PERIL SHIPPING

SAN FRANCISCO, Nov. 18.—Heavy winds, rain and general storm conditions were reported from practically the entire length of the Pacific coast today.

Shipping was being hampered considerably and smaller craft at many points were seeking shelter in the harbors.

Reports from Albion, Mendocino county, where the steamer C. C. Lindauer went ashore yesterday, indicated today that hopes of saving the vessel were fading. Throughout the breakers yesterday after a hard night the ship was subjected to a heavy pounding by the seas. Captain A. J. Hanson, who abandoned the vessel and came ashore through the breakers yesterday after a hard night, remained at Albion today to take advantage of any chance to save their ship.

The Ralph freighter Joan of Arc, which is ashore near the Rogue River, Oregon, was reported as still on the beach today, although hope of saving her had not been abandoned.

Weather bureau reports showed a sixty mile gale off North Head, Oregon, blew for a time yesterday and had calmed little if any today. Heavy rains along practically the entire coast were looked for.

From Red Bluff word came that the Sacramento river had raised seven feet in 24 hours as a result of rainfall and melting snow.

"What are you going to say on this subject?"

"I am not saying what I am going to say," replied Senator Sarghoun. "I get to rehearsing it and talking it over, I might lose my nerve and not say some of it."

BRITISH MEMORIAL GATE AT YPRES, PLAN

LONDON, Nov. 18.—For the purpose of selecting sites for the memorials to the men of the British army who fell in France and Belgium during the war, Lord Riddell headed a committee which has visited both countries.

"The best suggestion we have had so far," said Lord Riddell, "is the erection of a gate on the Menin road, Ypres. It is a matter of pride to the British army that it help Ypres through all the attacks made upon it, and in Belgium that is the natural choice for a memorial."

"There were so many places in France that the British army made famous by its courage that it would be difficult to select any particular place. Therefore, it is more than likely that Paris will be selected as the most suitable place for our memorial."

"We hope that the United States will follow our example and erect a memorial to their brave men who fell in the struggle. I am certain that this will be done and the scene of the last great and victorious effort against the enemy will doubtless be selected by them."

\$10,000 IN GEMS GONE

NEW YORK, Nov. 18.—William Burns, sent to the home of Mrs. Paul Burns as a window cleaner, is alleged by the police to have confined his efforts to cleaning out the top dresser drawer of \$10,000 worth of jewelry.

PARADOXICAL REQUESTING

"Why did you turn your late guest out?"

"Because he took me in."

Of course, Wilson can find his justification when he leaves the White House to write the world's history as it was and ought to be.—Philadelphia North American.

HUERTA FOR CABINET

MEXICO CITY, Nov. 18.—The Ex-celsior, Mexico's leading political organ, declared, on authoritative information, that Adolfo de la Huerta, now provisional president of Mexico, will head the cabinet of Gen. Alvaro Obregon when the latter assumes office as president on December 1.

In olden times the topaz was worn to keep the wearer from sleep walking.

No. 11719

Notice for Publication of Time of Proving Will, Etc.

In the Superior Court of the County of Orange, State of California.

In the Matter of the Estate of Robert Stocks, deceased.

Notice is hereby given that Friday, the 26th day of November, 1920, at 10 o'clock a. m., of said day, at the Court room of this Court, Department No. 2, in the City of Santa Ana, County of Orange, State of California, has been appointed as the time and place for hearing the application of Albert C. Johnston and James T. Irwin, praying that a document now on file in this Court, purporting to be the last Will and Testament of said deceased, be admitted to probate, that Letters Testamentary be issued thereon to James T. Irwin at which time and place all persons interested therein may appear and contest

Restores Original Color to GRAY HAIR

Co-Lo restores the natural color, life and luster to gray and faded hair in a manner nature approves.

Co-Lo Hair Restorer is a natural beautifier for gray hair—a scientific process perfected by Prof. John H. Austin of Chicago, over 40 years a hair and scalp specialist.

- The Ten Co-Lo Secrets**
1. Co-Lo is a wonderful liquid.
 2. Clear, odorless, greaseless.
 3. Without lead or sulphur.
 4. Hasn't a particle of sediment.
 5. Will not wash or rub off.
 6. Will not injure hair or scalp.
 7. Pleasing and simple to apply.
 8. Cannot be detected like the ordinary hair tints and dyes.
 9. Will not cause the hair to split or break off.
 10. Co-Lo can be had for every natural shade of hair.

When Eye Muscles Weaken

When eye muscles become weakened from overwork, they do not always weaken evenly.

Eyes are very delicately poised. Their movement must be in absolute unison. If one set of muscles is weaker than another it imposes a strain that saps your strength and impairs your efficiency.

If your eyes do not seem to pull together, if you are conscious of a strain you need our services. We can and will help you.

NEW HAIR after BALDNESS

IF YOU are losing hair, have dandruff, or are bald, let it be known that KOTALKO, containing the famous hair oil and other potent ingredients, is wonderfully successful. For men, women, children, and even the most delicate scalp, it restores the hair to its natural growth. One of the best of KOTALKO.

J. H. Brittain, Inc., Station F, New York, N. Y.

WILL PLACE RED CROSS BOOTHS ON STREETS

Tomorrow morning booths at which Red Cross memberships may be obtained will appear on two or more prominent street corners of Santa Ana.

While the canvass of the city by the house-to-house solicitors has not yet been completed, it is so far along that the committee in charge of the Red Cross roll call in Santa Ana believe that the time for opening the street booths has arrived.

Anybody who has not joined the Red Cross this week may turn the membership fee in at a booth and secure a receipt. Among those who will officiate at the booths will be Mrs. E. S. Morrow, Mrs. Jeanette Magill and Mrs. Homer Robinson.

1400 In Santa Ana
Up to this morning about 1400 memberships had been obtained in Santa Ana. There are two big districts, those canvassed by the Rotary club and the Kiwanis club, which have made no reports as yet. The team captains for those districts expect to complete canvassing before reporting. Yesterday the Elks team added sixty-three memberships, giving the team a total of 339. The Elks have completed the canvass of the southwest section of the business district.

Seventy-five memberships were turned in yesterday by Mrs. C. F. Smith and Mrs. Alex. Brownridge as team captains for the northwest district. The northeast section, with Mrs. J. B. Roberts and Mrs. C. A. Riggs as captains, reported sixty-six, and the southeast section, with Mrs. E. L. Morris and Miss Pauline Parsons as captains reported sixty-nine.

A number of subscriptions for contributing memberships and sustaining memberships have been received. The contributing membership fee is \$5, and the sustaining membership fee is \$10. Contributing memberships certificates were issued to W. P. Champion, F. S. Brown, J. P. Baumgartner, M. B. Wellington, Charles Spicer, R. E. Miles and G. A. Barrows. Sustaining memberships were issued to W. D. Baker and A. J. Perkins.

Roll Call Work Progresses
Reports received from Garden Grove and Tustin show that the roll call work in those places is progressing well. Garfield Allen, head of the drive at Garden Grove, and J. A. Dort, head at Tustin, have both sent in headquarters here for additional supplies.

Mrs. A. Gillison has received supplies for the canvass at Delhi.

NEW OIL LEASING PLAN ON AT GROVE

As a result of a meeting of members of the Huntington Beach Midway Oil company at Garden Grove, efforts were being made today to secure signatures on oil leases.

The company plans to drill in what was formerly the old river bottom. The territory which they seek to lease is situated about three-fourths of a mile south of the Orange road and about the same distance east of the Anaheim boulevard.

The company's plans are understood to be to start drilling within six months from the time the leases are obtained.

A number of Garden Grove people are interested in the company and it is thought probable that the leases will be signed within a short time.

FAKE OFFICER BEATS FRENCH GOVERNMENT

PARIS, Nov. 18 — A young man wearing the uniform of a French lieutenant recently obtained 738,000 francs from the French ministry of finance upon presentation of a payment order purporting to have been issued by the quartermaster of the army of occupation at Mayence. The order proved to be a forgery.

The police arrested Henri Platel, 21, a tailor. They say Platel confessed to the crime, adding: "Some say it is hard to obtain money from the government. It's easy."

FIND MAN GUILTY OF SMUGGLING CHINESE

LOS ANGELES, Nov. 18 — The war on Asiatic smugglers by federal officials in Southern California was given an impetus here when a jury in Judge Bledsoe's court found Martin Antunes guilty of smuggling five Chinese across the international border at Calexico. He will be sentenced Monday. Antunes and Jose Paiz were arrested September 9 by Immigration Inspectors G. W. Morris, Jr., and Louis C. Hubbard. Paiz pleaded guilty and was sentenced to fifteen months in the federal penitentiary at McNeil's Island. He signed an affidavit exonerating Antunes. This was submitted to the jury for what it was worth.

FIG GROWERS AND PEACH MEN MERGE

FRESNO, Nov. 18 — Trustees of the California Peach Growers, Inc., at a meeting passed a resolution increasing the capitalization from \$1,000,000 to \$5,000,000 to allow of the merging of the fig industry with the association.

Vice-President and General Manager J. F. Niswander, immediately after the meeting, announced that another meeting of the board of directors, to be held in a few days, will be necessary to complete the merger of the industries.

The directors will pass a resolution to change the name from the California Peach Growers, Inc., to that of the California Peach and Fig Growers.

ARREST BANDIT SUSPECT.

LOS ANGELES, Nov. 18 — O. C. Northrup, 22, a taxicab driver, was arrested early today on suspicion that he was one of three bandits who held up Gordon A. Fairbairn, who conducts an automobile parking station, and robbed him of \$150.

BIG JOLLIFICATION HELD BY 125 FORMER MISSOURI RESIDENTS

An informal evening, in which a short program, dancing and card were features, was enjoyed last night by the Orange County Missouri society at Neill's hall. About 125 members of the society were present.

The program started with the singing of "America" by all present. Mrs. I. D. Mills of Orange then gave a talk on the first Orange County Missouri society, founded in the county about 25 years ago. This society lasted only a few years, said Mrs. Mills.

Readings by Miss Lucy Lockhart and P. D. Wedell of Santa Ana and Miss Helen Stierling of Orange were greatly appreciated.

Little Miss Nancy Moore of Fullerton gave a fancy dance that was enjoyed by all. A clever one act farce was put on by three members of the society.

Carding and dancing were enjoyed after the program and refreshments of ice cream, sandwiches and lemonade were served during the evening.

CHILDREN TO HELP FILL THE BASKETS

Children of the schools of Santa Ana are to have an opportunity to contribute to the Thanksgiving and Christmas dinners of poor families in Santa Ana. The distribution of the articles donated by the children will be in the hands of the Salvation Army.

Mrs. B. C. Smith, adjutant in charge of Salvation Army work here, said she plans to have the Thanksgiving baskets contain largely fruit and vegetables, while the Christmas baskets will have cooked meats in them. Canned goods that will be contributed by some of the children will be distributed according to the needs of the families concerned.

Teachers of the city are to explain the matter to the children of the schools, and a day is to be set for bringing in the gifts of foodstuffs.

GRID MEN ALL SET FOR TITLE BATTLE

SAN FRANCISCO, Nov. 18 — With the California-Stanford "big game" only two days away, the teams today seemed agreed on everything excepting who was going to win.

Stanford took the lead and announced it was praying for a clear, dry day and a fast field.

California followed with an announcement that a clear, dry day and a fast field was just what it wanted.

Stanford announced that some of its players might be crippled but that California would know it had been playing football when the sun sets Saturday night.

California replied that such a statement went for it too. But in the meantime there were a good many things going on which would not permit the game to go to either side by stipulation.

Down at the Stanford farm, Dad Moulton, veteran trainer, was busy today straightening kinks out of the respective and highly valued forms of Pelouze and Adams, Stanford ends. Both are running on flat wheels but Moulton promised that he would have them in shape to start the game. Templeton, Wilcox and Patrick all were somewhat bruised in the game with Washington at Seattle, but Moulton added that they had been bruised before and would be going strong, he hoped, by Saturday.

California seemed to be in better shape, as far as the casualty list was concerned.

Reports from Berkeley give promise of a good playing field, unless there is more rain today and tomorrow. Thus far only two really bad spots have developed on the gridiron. They are at either end of the field, nearly in front of the goal posts.

TWO PESOS BOUGHT POUND OF PLATINUM

Two pesos, or \$1 a pound was the earliest price ever quoted for platinum, now worth \$165 an ounce. This original price of a metal with which Russia is now planning to finance its international trade and form a reserve for its money system was established in the middle of the eighteenth century, after the discovery of platinum in Colombia.

When first found, platinum was regarded as worthless. The amount thrown away on the gold mine dumps of Colombia would be worth several million dollars today. Later the metal was used for making pitchers, cups and statuettes. These were sold at about the price of pewter.

After the discovery of platinum in the Ural mountains in the middle of the last century, Russia for a short time issued platinum coinage. The intrinsic value of the coins were reckoned at six times that of silver and one-third that of gold. A rough estimate places the total amount of platinum so far produced in the world and still extant at 4,000,000 ounces, at least a quarter of which is in the United States.

CAPRON DOWNS NEAL IN 3-CUSHION GAME

CHICAGO, Nov. 18 — Joe Capron, veteran billiardist, broke his losing streak here last night by defeating Hugh Neal, of Toronto, 50 to 49, in 70 innings, at the three cushion game.

Alfredo De Oro, of New York, continued his brilliant play and defeated Charles Otis, of New York. Johnny Layton, of St. Louis, had little difficulty defeating Charles Morris.

A statement from Fresno is to the effect that figs will begin coming to the packing houses about November 15 and the crop will be about 10,000 tons.

SAYS TEACHERS CONSCIOUS OF THEIR RIGHTS

That the teachers of America have become conscious of their power and their rights, and that they will never return to a condition in which "they were a great submerged body," was declared in an address delivered last night to the Teachers' League of Santa Ana by Mrs. Susan M. Dorsey, city school superintendent of Los Angeles.

Mrs. Dorsey's address was preceded by two delightful songs sung by the Girls' Glee club of the high school. The speaker was introduced by Mrs. Nettie J. Wulff, president of the Teachers' League.

"I believe that all children in America should be educated in the public schools," Mrs. Dorsey declared. "There is no discipline like the public schools for the making of citizens for a democracy."

"I am speaking to you tonight on how a teachers' league can serve the interest of the children. The interest of the children is the one test to be applied to everything having to do with schools."

Tells League's Potentiality.
"One way in which the league can serve for the betterment of the schools is to stress professional improvement. Modern education bristles with problems. I am not a faddist in psychology, but psychology has opened up a way evidently that can serve to make children better able to meet their troubles. This league, or any other league, could spend a year studying the intelligence test."

"Another thing a league could do would be to study Americanism. There has been much said about Americanism, and a good deal of it has been indefinite. Just how to proceed to Americanize is a thing for us to study. When we clarify our own ideas upon Americanization we will have accomplished something."

"There have been some cold things perpetrated upon high school students in times past, all in the name of education. One of them was the fad of history teachers to go back to original sources. I believe in interesting school children deeply in bond elections. A city bond election campaign through the schools gives children vital civic experience."

"Another way in which a teachers' league can help the schools is to try to understand sympathetically the problems of administration. Sympathy will bring a degree of co-operation not otherwise possible."

Tells Third Way.
"A third way in which a league can do valuable work is to make a conscious effort to sense the social problems of its own community. In some schools the general atmosphere is that of repression, sullenness. Here in California the general atmosphere is that of buoyancy and cheerfulness. I am afraid that our California tendency to a happy-go-lucky spirit is a menace in our school rooms. The teacher finds it hard to get her children down to their tasks."

Mrs. Dorsey closed her address with a plea for the passage of the Smith-Towner bill by congress. This bill has a provision for a national department of education.

HAVE YOU EVER TRIED TO CATCH A PYTHON?

The life of a menagerie recruiter is full of thrills but the profession is not overworked. The reason can be gathered from a story told recently by Charles Mayer of the trapping of a huge python. His story follows:

The python was sleeping peacefully, digesting a pig. I called to the men and put them to work at staking the crate to the ground and securing it so that the snake could not lash it around. The crate was just large enough to hold him and just small enough so that, once inside, he would not be able to get leverage and break it. I passed a rope through the crate, tying one end to a tree and preparing a running noose so he slipped around the snake's head when we were ready to draw him forward. Two more ropes were laid out, running from his tail. These we wrapped around trees on each side of the tail, and I stationed men at the ends, showing them how they were to pay out the rope as the snake was drawn toward the crate, keeping it taut enough to prevent him from lashing.

The natives holding the tail ropes became excited and succeeded in getting only one of them in place. The python suddenly leaped forward, and, though he did not loosen the rope, whipped it out of the hands of the men and knocked several of them flat; then he caught one man, who had not been able to get out of the way, and wrapped the lower part of his body around him while five or six feet of his tail still lashed about with the rope. I yelled to the others to pull on the tail rope, but the metal was used for making pitchers, cups and statuettes. These were sold at about the price of pewter.

After the discovery of platinum in the Ural mountains in the middle of the last century, Russia for a short time issued platinum coinage. The intrinsic value of the coins were reckoned at six times that of silver and one-third that of gold. A rough estimate places the total amount of platinum so far produced in the world and still extant at 4,000,000 ounces, at least a quarter of which is in the United States.

The man who was caught in the snake's coils screamed, and tried to beat off the tail as it was drawing in about him. Then the snake contracted suddenly, breaking nearly every bone in the man's body and crushing the life out of him instantly. Blood spouted from his mouth and ears, and he was thrown limply about as the snake lashed in the air.

I yelled to the men to pull the head rope, but unfortunately the tail rope had not become loose, and we caught it just as the snake tried to lurch forward again. We allowed him to move forward slowly, drawing his head slowly toward the crate and, at the same time, holding his tail until we had him stretched out. By prodding his tail with sticks, we forced him to uncoil and to release the body of the native.

Stem end rot caused heavy losses this year to Southern states melon growers.

COURTHOUSE NEWS

MUSICIANS LOSE \$6000 CRASH SUIT HERE

Judgment in favor of Steven Fox of Newport Beach, who was being sued for \$6000 damages and court cost and all doctor bills, by Philip and Mary Snyder, of Newport Beach, following a collision which they claimed was caused by Fox having no lights on his car, has been rendered by Judge Z. B. West of the superior court.

The contention of Fox's attorneys, B. E. Tarver and Head and Rutan, was that the Snyders were guilty of contributory negligence, in that they were driving their car on the wrong side of the road, and that they themselves had no lights on their car at the time the accident occurred.

Charles D. Swanner and Joe Burke, representing the Snyders, insisted that there were two small oil lights burning on the dash of the Snyder car. Witnesses who examined the car immediately following the accident testified, however, that the lamps in question had no oil in them.

The Snyders, who are musicians, and were on their way to play for a dance at Huntington Beach at the time of the accident, claimed damages because of injuries. Mrs. Snyder claimed that her injuries had prevented her from pursuing her profession for some time.

Judge West sustained the contention of Fox's attorneys, and held that the Snyders were not entitled to recover damages.

ACCUSED IS FREED OF MURDER CHARGE

Silvestre Sandoval, one of the three men charged with the murder of Ignacio Guerrero at Westminster on September 12, was at liberty today, following his preliminary hearing on the charge in the court of Justice John B. Cox.

The case against Sandoval was dismissed on motion of his attorney, Antonio Orfila, of Los Angeles, the motion being concurred in by Deputy District Attorney W. F. Menton.

The original complaint charged that Sandoval, in company with Forfio Lopez and Elberto Sisto, had stabbed Guerrero to death with a beet knife, following a row over some liquor which Guerrero was bootlegging at a Mexican dance in Westminster. Guerrero was known to have done a rushing business on the evening in question, and to have had a considerable amount of money in his possession. It is thought that robbery was the motive for the crime.

Sisto and Lopez left Westminster a few hours after the crime was committed, and have not as yet been apprehended. Sandoval continued to work at Westminster until he was arrested and the charge placed against him.

Testimony given by Sandoval was corroborated by other Mexicans who stated they saw the pair going away with Guerrero, and saw Sandoval following them.

Although released from the murder charge, Sandoval was ordered by the court to remain in this vicinity and to keep in touch with the district attorney's office, for the reason that he will be used as a material witness against Sisto and Lopez in the event they are apprehended.

L. B. WILL BEAUTIFY OCEAN FRONT BLUFFS

LONG BEACH, Nov. 18.—The ocean bluff from Alamitos avenue to Twentieth street, a distance of a mile, will be terraced, protected with a five-foot toe-wall and planted with vines whose dense growth will form a mat over the face of the bluff, constituting an extensive improvement, if plans worked out by the city engineer's office and presented to the department of public works are approved by the city commissioners when Commissioner J. D. Seerie submits them with his recommendations at an early meeting.

GERMANY PLANNING BIG GRAIN IMPORT

BERLIN, Nov. 18.—An official inventory of the visible supply of grain tends to show that Germany will be obliged to import 1,600,000 tons of wheat, rye, corn and barley in order to safeguard the nation's bread supply up to next mid-summer. Germany, says the inventory, has been obliged to pay prices ranging from 4000 marks to 7000 marks per ton for foreign grain in past months, and unless the mark shows a pronounced improvement, or the government is able to provide ample credit in the near future, the quota of wheat to be purchased abroad will cost 12,000,000,000 marks.

TWO-YEAR HUNT FOR ARMY DODGER ENDS

CHIPPewa FALLS, Wis., Nov. 18.—Louis Krueger, for two years sought by Federal authorities as a draft evader, has been arrested here. Leslie and Frank Krueger, brothers of the man arrested, are serving life sentences in the Waupun prison for the slaying of Harry Jensen, a member of a posse which sought to arrest the Krueger brothers at their farm near Owen, Wis. Louis Krueger was not involved in this shooting, the authorities say.

CALIFORNIANS FIGHT FLORIDA PROPAGANDA

SANTA BARBARA, Nov. 18.—Combating propaganda sent out from Florida to deter tourists from visiting California, the meeting of the Western Hotel Scenic Association, in its session at the Arlington hotel, went on record favoring a strong campaign throughout the East and in Europe.

Various speakers declared that the Florida campaign propaganda was of the "bogey-boo" order, intended to throw a scare into easterners, and to lead them away from the Pacific Coast. Among the speakers were Sam F. Dutton of Denver and Harry N. Durhams, president of the American Travel Dealers' Association. Frank Miller of Riverside Mission Inn, and Charles S. Fee, passenger traffic manager of the Southern Pacific, are on today's program.

BRICKMASON'S FINE INFERIOR WORKMEN

FRESNO, Nov. 18.—The state convention of brickmasons here decided to make state-wide the penalty of a fine on any member of the union guilty of inferior work. A member of the San Francisco union had appealed against a fine inflicted by his union, but the convention sustained the union, maintaining that such a law would lead to better work—that it would be better for the building industry generally, a protection to those building, and a means of combating unscrupulous contractors who rushed work to obtain their money quickly.

BOSTON MAYOR ASKS NEW FEDERAL COURT

BOSTON, Nov. 18.—A population of 801,679 for this city, instead of 747,923, as announced by federal census takers, was claimed by Mayor Peters in a letter to Samuel L. Rogers, director of the census, requesting that a new federal census be ordered here.

Frigid weather, which made it difficult for canvassers to get about when the census was taken, and a panicky feeling among the foreign born over the search for radicals which caused them to withhold information, were among the explanations advanced by the mayor for alleged errors in the federal enumeration, which, he claimed, omitted 2,000 persons in one ward and showed a decrease of 14,000 in another.

Eleven wards as reported in the federal figures showed a decrease in population as compared with the state census of 1915, a falling off which the mayor termed impossible. Records showing an excess of births over deaths, an increase in foreign born inhabitants, gains shown by the annual police census and other figures were cited to show that the census as announced were in error.

The Palo Verde Valley has seven cotton gins now in operation.

CONTRACT FARMING NEW JAPANESE PLAN

FRESNO, Nov. 18.—Prevented from leasing land under the new California alien land law, Japanese of the San Joaquin valley are preparing to farm California land under crop contracts, according to a statement made here by J. Iino, of the Japanese association of Fresno. This was decided upon, he said, at a meeting of Japanese held in Fresno on Nov. 8.

Guilds are to be established in every town to assist Japanese farmers in the drawing up of crop contracts, Iino said.

THRIFT

At SPURGEON'S on every piece of furniture.

In every salesman's mind, the word is turning.

True value or quality, makes worth.

There is just as much difference in the quality of furniture as there is in jewelry or furs—now then don't take a chance, by buying from a firm that has nothing to offer but price inducement.

Price is not a factor that determines worth, but the integrity of the merchant that merchandises the article which you buy—"whether it be furniture, clothing or machinery"—establishes the true merit of quality—price is a thought of today—but the quality of furniture good or bad is with you a lifetime. Enlist in the army of THRIFT—make your selection of home furnishing at SPURGEON'S.

HONOR—A recognized reputation for fair and honorable business dealings.

STRENGTH—A responsible and substantial financial standing.

QUALITY—An honest product of quality truthfully represented.

SERVICE—A recognized reputation for conducting business in a prompt and efficient manner.

S. A. PLANS BIG CANYON RESERVOIR

SEES BEACH OIL FIELD ONE OF GREATEST IN CALIFORNIA

Bolsa Chica No. 1 One of Biggest Producers in Cal., Says Expert

HUNTINGTON IS BOOMING

Formations Penetrated So Far Indicate Vast Wealth Is View

"Huntington Beach is a wonderful field, and, in my opinion, will develop into one of the greatest oil fields in the state. The Standard Oil company's Bolsa Chica No. 1 is one of the biggest producers in the state. It is flowing between 6000 and 7000 barrels, in my opinion."

This is the statement of R. W. Edens, superintendent of the Mid-Central Oil company and president of the Orange County Drilling company, both operating in the Huntington Beach field.

Edens has been in oil development work for many years. He has had experience in a number of fields and was with the Standard Oil company when the big well was brought in on the Emery lease a few years ago.

Huntington Beach is enjoying a mild boom as the result of the discovery of oil. The demand for houses to rent is far beyond the supply. Values of acreage and of city lots have advanced. Building operations are in progress and a general air of expansion pervades the city.

Sees Business Expansion

A prominent business man stated that new business enterprises are seeking locations and he anticipates rapid expansion of the business district within the next few months. It is understood a new bank is among the possible additions to the business section.

Discussing the Huntington Beach oil field, Edens said:

"No field has ever been discovered where drilling operations are as easy as they are here. There are no hard formations to fight. The only trouble developing here is with water. It is the greatest source of delay in drilling."

"Formations penetrated by various wells in the district indicate a wealth of oil underlying this section. The gusher developed by the Standard Oil Company in its Bolsa Chica No. 1 is only a starter in the uncovering of big producers, in my opinion."

"The character of the formation here will make quick development of the field possible. Wells can be drilled in much shorter time than in

(Continued on Page Ten)

Home Products Banquet To Be Held Yearly, Realty Board Men Decide

A banquet featuring home grown products will become an annual affair with the Santa Ana Realty Board, under action taken by the organization at a meeting last night at the city council chambers.

The first banquet will be held in January of next year and thereafter it will be held on the date of the annual meeting of the board. It will be known as a home-products campaign banquet and it may be that a small display of county products will be held, along with the annual dinner.

Orange county produces a large number of crops in commercial quantities, together with some very special products that thrive here, but which are not grown commercially.

It is believed that a menu could be developed that would be impossible of duplication by any other county in the world.

NEW ADOBE CHURCH PLANNED BY PASTOR

A new church, of Spanish architecture and constructed of adobe by people of his own congregation, is the aspiration of Rev. J. C. Nava, pastor of the Mexican Methodist church in this city. Rev. Nava has such a building under contemplation and a committee has been appointed to look up sites that might be available.

Nava says that he has a number of competent masons and carpenters in his congregation and that he is interested in providing work for them.

He points to the activities of Carillo brothers in building the first adobe house in Santa Ana under modern methods. The brothers are erecting a residence on Garnsey street, in the opinion of Rev. Nava, adoption of this character of building by others would open up an avenue of activity for Mexicans, who are familiar with the making of adobe brick, and who are good masons and carpenters.

Fred Carrillo, who is supervising the work in progress on Garnsey street, has had a great deal of experience in building operations of this type. A total of 2400 adobe bricks has been manufactured for the residence.

"The Carrillo brothers have found the secret of reducing building costs," said Rev. Nava today. "Adobe construction offers a fire-proof residence, a warm house in winter and a cool one in summer. I hope to see, and believe I will see, a number of other residents of Santa Ana follow the example of the Carrillo brothers."

"I like to encourage the young men of my congregation in improvement of their homes, and they are showing a keen interest themselves. They have energy and ability and execute their work in a most creditable manner."

ABSTRACT FIRM ENLARGES ITS OFFICE ROOM

Upper Floor of Building, Corner 5th and Main, Being Remodeled

The Abstract and Title Guaranty company has begun the conversion of the second story of its building at the corner of Fifth and Main streets into office rooms. It is working toward definite plans providing for enlargement of its downstairs office. The latter improvements will be started about the first of February. J. Simon Fluor has charge of the work.

The plans for the upper floor call for eleven office rooms. Five of them will be used by Dr. C. D. Ball and will be arranged especially for his use. He will have the rooms which front on Main street, as well as others along the south side of the building.

The upper floor formerly was devoted to housekeeping apartments, with an entrance from Fifth street. An entrance from Main street is being built to make the office rooms accessible from the front of the building instead of at the side.

The American Railway Express and the Pacific Electric company, now occupying one of the rooms on the ground floor of the building, adjoining the office of the Abstract and Title Guaranty company, will vacate their quarters February 1. The Abstract company will enlarge its office to occupy the two rooms, giving a 50-foot instead of a 25-foot frontage. The brick wall now separating the two rooms will be removed.

A large lobby will be arranged, with the Main street entrance located in approximately the center of the frontage. A tile floor and marble base will make the lobby attractive.

Four escrow rooms will be provided, three on the north side of the room and one on the south side, with a private room for a bookkeeper.

The company's business has developed to the point where enlarged quarters are necessary to assure patrons quick and efficient service.

WILL LOSE FORTUNE SHOULD HE RE-MARRY

BOSTON, Nov. 18.—Unless William Garrison Reed, 27, of Brookline abstains from matrimony in future, he will receive none of the benefits which otherwise come to him under the terms of the will left by his wife, Mrs. Mary C. Reed. The testament, which has been admitted to probate, provides that so long as Reed remains single and survives his children, he shall enjoy the income of a trust fund created by the document. He also is to have the use of the family furniture on the same terms. The children are living. The estate is valued at \$12,000.

In order to meet the demands of that kind of trade, Bird yesterday commenced the construction of a lunch counter annex to the Palm cafe. It is not to be a "hole in the wall" annex, either. It is to have a concrete foundation, and will measure about twenty feet across, by fifty long. That will give space enough to

(Continued on Page Ten)

CHANGE WORKED AT SAN JUAN BY HIGHWAY

Residents of Mission Town Putting Up Modern Structures

SAN JUAN, CALIF., Nov. 18.—With Fred Stoefel's fine brick block almost completed, and the old wooden store building that for many years comprised the major portion of the business section of the mission town torn down, the main street of San Juan Capistrano is today further away than ever before from the sleepy semi-Mexican town that pioneers knew and loved.

There are many of the old landmarks left, to be sure. The Franciscan mission is drawing a steady stream of visitors, as it has ever since the state highway was paved through the town some years ago.

It is the same state highway that has given the main street of San Juan Capistrano its newness. The state highway has brought new business to the place and also many new people.

Times Have Changed.

While there are hundreds of people stopping at the mission weekly, there are also hundreds that are stopping here merely for gasoline and something to eat.

The old days, when a party of strangers would drop into town, leisurely take in the mission, and stroll over to the Mendelson hotel for whatever might be on tap for dinner, have passed.

The new San Juan Capistrano is arranging itself to serve a hurrying along kind of a trade. The mission management has arranged to serve these hastening tourists, who are out to see all they can in the time they have allotted to themselves for their stay or their trip. There is a guide on hand to give the visitor a mass of detailed information, to point out Father Serra's old church, the old chimney and the other unique features of the mission, and do it quickly.

Even R. A. Bird, proprietor of the Palm Cafe, has found that the quick-fed feeders must be looked after. Bird has a nice cafe, with good service, but there are any number of people who tear through the country between the two edges of the state highway, who haven't time to sit down and eat a meal. They want "ham-and" and want it right away.

They want to sit on a revolving stool, grab it, shove it away, and go.

Annex for Speed.

In order to meet the demands of that kind of trade, Bird yesterday commenced the construction of a lunch counter annex to the Palm cafe. It is not to be a "hole in the wall" annex, either. It is to have a concrete foundation, and will measure about twenty feet across, by fifty long. That will give space enough to

2 MILLION MARK NEARS IN S. A. BUILDING

Building permits issued during the past week, aggregating \$14,750 for proposed improvements, brought the total for 1920 to \$1,884,605.

Twenty-two permits were issued during the past seven-day period. Seven of these were for dwellings, calling for a total expenditure of \$7,550.

To date, the total number of permits this year is 862, of which 344 are for residences.

While it is apparent that there is at present a lull in building operations, those familiar with local conditions are sanguine that a mark of \$2,000,000 in permits will be reached by December 31.

Thomas Ash, city building inspector, is of the opinion that the recent drop in building is a reflection of conditions in the East, where the approach of winter usually puts a stop to building operations.

According to Ash, the cessation in building is only temporary. "November and December have always been low months in past years," said Ash. "January usually starts out big again and it looks as though that might be the case in 1921, although November is still holding up to the lower average of former years and December will probably show up even better."

FORGIVE THEFT TO GET SERVANT BACK

SPOKANE, Wash., Nov. 18.—That domestic help is at a premium was proved in this city recently when Mr. and Mrs. James Fleming asked Judge Hunkle to suspend sentence upon Catherine Zeiser, a domestic employed in the home of the Flemings. She had pleaded guilty to stealing \$301.65 from the Flemings. "We don't know what we will do without a girl and it is almost impossible to get one," the Flemings pleaded, "and as we have forgiven the money we are willing to forgive her and take her back."

Keep your house clean with Hokus Pokus—Adv.

Washington school!—Or, more familiarly to the old residents of Santa Ana, Central!—What a world of memories its stateliness instills!—to paraphrase Poe.

The old structure serves to remind hundreds, yes, thousands, that the same old bell that still hangs in the belfry once called them to their daily tasks in 'readin', writin', an' 'rithmetic.'

It was back in 1887 that the building was erected. Every year since then has seen the passing of many feet across its thresholds. And now, what with the passage of time, there are at Washington school many pupils whose parents at one time went there.

Was First High School

Four years after it was built, Washington school had the honor of becoming the only high school in Orange county. The opportunity to attend the tenth, eleventh and twelfth grades was grasped by ambitious young folks all over the surrounding country. They came on foot, horseback or bicycle, but, at that, only four teachers were found necessary, one for mathematics, one for the sciences, one for grammar and language, and one for reading and spelling.

The new high school was organized into three classes, the juniors, the middlers and the seniors, the first two of which correspond to the sophomore and junior classes in the present high school. The ninth grade, or freshman class, was then carried on in the grade schools, thus limiting the high school student to three years. The first class was graduated in 1893.

Five years ago Washington was turned into a sixth grade school. At present 280 pupils are attending, and there are eleven teachers.

Miss Lana Brokaw teaches science and nature study, Miss Nellie Vance Wilson, history and physical education, Miss Helen Garstang, music and art, Miss Maggie Moore, arithmetic, Miss Ira Weber, language, Miss Mabel Latta, geography, Miss Lillian Fitz, sewing, and Miss Vancho Eklou Plumb, the principal, reading, J. A. Randall and A. M. Warden have charge of the industrial arts, and Lester Archer conducts physical education for the boys.

Have Self Government

Pupils in the sixth grade are at the age where they begin to assume the responsibility of good discipline, and the young people at Washington are largely controlled by self-government. They maintain law and order without strict rules.

It is interesting to note that although Washington is the oldest school in Santa Ana there would be little danger in case of fire. Several experiments have been made with fire escapes, but it was found that the stairs and doorways were conveniently located. By practice in fire drills the students have been able to evacuate the building in forty eight seconds.

McFADDEN HEADING COLLEGE COMMITTEE

Arthur J. McFadden of Irvine, a graduate of Pomona College, has been selected as chairman of a Pomona College Association committee which is heading a movement to raise \$45,000 to build a memorial training house at Pomona College.

Each of the twenty-seven classes which have graduated from the college are represented on the committee. This committee hopes within the next month to reach every alumnus of the college with an appeal for a contribution to the fund.

The campaign started this week and already one-third of the amount sought has been pledged.

PIONEER CAL. WOMAN, SCHOOL TEACHER, DIES

LOS ANGELES, Nov. 18.—Mrs. Emily J. Aubury, who came to California by the way of the Isthmus of Panama in 1852, died here at her hotel. Her son, Lewis E. Aubury of Burlingame, former state mineralogist, was with her at the time.

Mrs. Aubury was a pioneer teacher of Los Angeles and was a resident of the county for many years. She was a daughter of Charles A. Tweed, once chief justice of Arizona. Her body will be taken to San Francisco for interment.

NEEDS OF 150,000 CITY IN VIEW AS 7-BILLION GALLON BASIN PROPOSED

Visioning Santa Ana as a city with a population of 150,000, and realizing that the city of the future must be supplied with gravity water, the city council has under way a project which it believes will offer a dependable supply of water for many years, following completion and installation of plans under consideration. The source of supply is Santiago canyon.

The project is big—one that probably will require several years to carry out—and includes an impounding reservoir of 7,000,000,000-gallon capacity, a concrete dam at least 100 feet high and of sufficient width to span the canyon, and the flooding of about 100 acres of bottom lands in Santiago creek.

At the instance of the city council, Walter Wray, superintendent of the municipal water department, has filed an application with the state water commissioner for the "run-off" of the Santiago creek water shed. He has asked for 7,000,000,000 gallons of the "run-off"—that is, the right to store that quantity of water developing in the watershed.

Wray, City Engineer W. W. Hoyt and Water Commissioner C. H. Chapman have been working on the project for some time. Their investigations and actions have been kept in the background purposely in order that they might not be hampered in their plans. Filing of the application has been made and the proposed plans no longer are a secret.

Wray has had the matter of a water supply for the future Santa Ana in mind practically ever since he assumed the position of water superintendent. He made numerous visits to Santiago canyon before broaching the subject to members of the council.

The whole matter is merely in the preliminary stages. No attempt has been made to estimate the cost of the project. Its feasibility has been proven to the satisfaction of the city officials.

Tentatively, the plan is to erect a dam at the upper end of what is known as the narrows. This is located just above the intake of the John T. Carpenter Water company, and west of the two-story house that confronts one upon reaching the crest of the second grade to Orange County park on what is known as the Villa Park road. The point is about a mile and three-quarters from the park.

The dam would back the water up nearly to the park and the reservoir proper would be in between the hills on opposite sides of the creek. It is expected that a dam 100 feet high will be required to impound the volume of water applied for. This would form a body of water about one and three-quarter miles in length and one mile in width.

Need 100-Foot Dam

Changing the road from the creek bottom to the crest of the hills running along the south side of the creek would be necessary and it is understood that this is in contemplation for the immediate future.

Possibility of developing a big lake brings a vision of one of the prettiest spots imaginable. With a drive skirting the lake, as the road would if changed as suggested, and ornamentation of the banks of the lake, Orange County park would become one of the grandest scenic points to be found anywhere in Southern California, in the opinion of Wray and Hoyt.

It is not expected that the proposed development of water from this source will be possible of accomplishment in the immediate future. It is planned merely to place the city in position to avail itself of the supply when the population has increased to the point that more water must be provided.

Pumping too Costly

Cost of pumping from wells, when investment in equipment is considered, will be too expensive under the larger population to warrant continuation of the present method of supplying water. In the opinion of the water superintendent,

The area of the watershed of Santiago creek is estimated at about ninety-five square miles. In the opinion of the water superintendent and the engineer the run-off above the requirements of the two irrigation companies and of the Irvine company, now settling their supply from the creek, is more than sufficient to meet the requirements of a large city.

It is not intended to interfere in any way with the volume of water now available to the Irvine company, the John T. Carpenter Water company, which supplies El Modena, and the Serrano Water Company, supplying the Villa Park district.

The Irvine intake is above the proposed location for the dam. The intake of the other companies is below. The water commissioner has authority to see that the quantity is made available from the proposed reservoir.

Run-Off Total Waste

The run-off is the flood waters which now run to the ocean every year and which are a total waste. Conservation of this vast waste and its utilization by the city would have the effect of materially relieving the water shortage in wells to the south and west of Santa Ana, it is believed.

(Continued on page ten.)

CHURCH RAZING RECALLS OLD S. A. HISTORY

Razing of the old First Methodist church building at the corner of Main and Second streets has been effected. It has given way to the march of progress and extension of the business section of the city south on Main street. The building has housed a commercial enterprise for some years.

A modern reinforced concrete garage building is being erected on the lot. A. L. Philbrick is the owner of the property and the new building will house his tire and vulcanizing business, now located at 512 North Main.

Destruction of the old church structure has called to the minds of old timers here the days of 1881, when it was constructed, and when the entire community of that time was directly concerned with the erection of an edifice that was considered to be in advance of the requirements of the city.

The Methodist church was organized in 1873 with eight members, among whom were Mr. and Mrs. Lemuel Robinson, parents of Walter K. Robinson, who passed away last week. Mrs. Martha Ritchey and Mrs. R. J. Bloe. It was organized by Rev. Will Knighten, who was a circuit rider, with headquarters at Orange.

Services were held the first Monday in each month either at Latimer hall or in the school house, the latter being located on the site of the present Spurgeon Memorial church, Broadway and Church streets.

The congregation grew rapidly and eight years later found members kept for the erection of a church home. Rev. C. W. Tarr was called. He was a man of energy and good executive ability. He set to work to build the church. He collected sufficient funds to make a start on building operations possible. The lumber for the structure was brought into Newport Bay and was transported to Santa Ana by teams.

Rev. Tarr supervised construction, being himself handy with the saw and hammer. Construction of the building progressed intermittently, the amount of work done at various periods depending on the amount of funds available. The pastor and members of his flock co-operated in developing funds. Volunteer workers were called for at times. Captain John West and Noah Palmer, pioneers long since deceased, were liberal supporters of the church fund and beside giving cash sent their own employees at times to work on the structure.

The building finally was completed and was dedicated about the middle of the year 1881. It was used as a house of worship until a time, many years later, when the congregation grew to such proportions as to necessitate a larger edifice. The First Methodist church building at the corner of Spurgeon and Sixth streets was then erected.

YUBA COUNTY OPENS DRIVE ON COYOTES

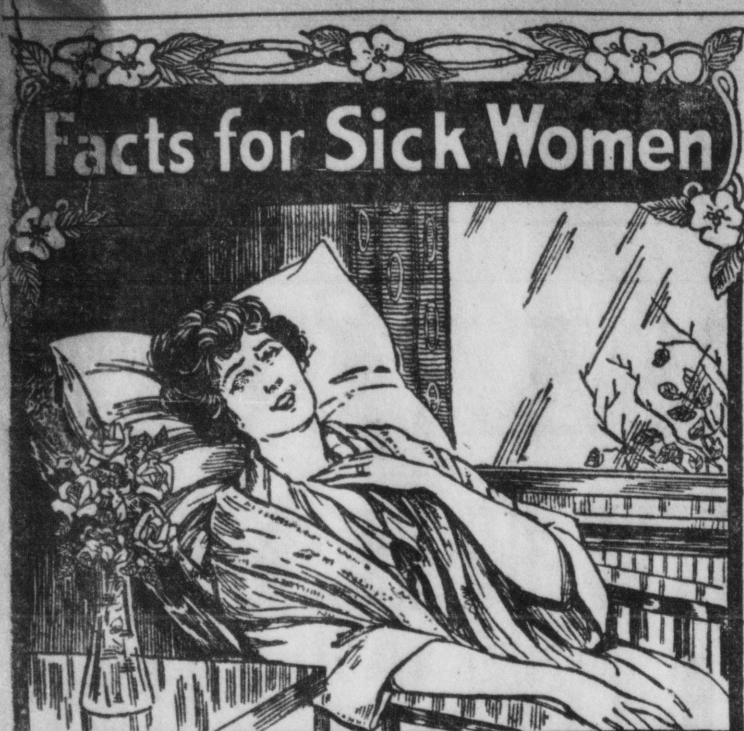

MARYSVILLE, Nov. 18.—After a conference between Yuba county sheepmen, Farm Adviser Harrison and Professor C. G. Poole of the U. S. Biological Survey, the Yuba Farm Bureau Predatory Animal Control committee was formed with Andy Robson, president; J. R. Hartley, secretary, and W. S. Carter, treasurer. The committee signed a contract with Professor Poole for the extermination of coyotes in the winter sheep pasture district in the county, the expense to be borne half by the government and half by the committee.

Professor Poole stated he would bring a professional wolfer to Marysville and start the war on coyotes with traps and poison on December 1.

Is It Alive?
What Is It?
???

It's Going to appear at Main St. and Fifth, FRIDAY at 2:30 P. M. and you will have until 5:00 P. M. to guess what it is!

YOU COULD ASK J. C. HORTON ABOUT IT, BUT IT'S GOT HIM MYSTIFIED TOO. ANYWAY IT'S GOING TO APPEAR IN HIS WINDOWS.

Facts for Sick Women

Reliable Information

All American women know of the great success of Lydia E. Pinkham's Vegetable Compound in restoring to health women who suffered from ailments peculiar to their sex, yet there are some who are skeptical and do not realize that all that is claimed for it is absolutely true—if they did, our laboratory would not be half large enough to supply the demand, though today it is the largest in the country used for the manufacture of one particular medicine.

The Facts contained in the following two letters should prove of benefit to many women:

Buffalo, N. Y.—"I suffered with organic inflammation and displacement. When lifting I had such pain and bearing down that I was not able to stand up, and it hurt me to walk or go up or down stairs. I was going to a doctor without any result and he said the safest thing would be to have an operation. I met a lady who told me she had three operations and was not well until she took Lydia E. Pinkham's Vegetable Compound. I felt relieved after taking two bottles of Vegetable Compound and I kept on with it until I was cured. I always use Lydia E. Pinkham's Liver Pills and they are fine. Everything used to turn sour on my stomach and the Liver Pills relieved that."—Mrs. A. ROGERS, 503 Fargo Avenue, Buffalo, N. Y.

The fact is, the Best Medicine for Women is

Lydia E. Pinkham's Vegetable Compound

SEES BEACH OIL FIELD AS ONE OF BIGGEST

(Continued from page nine)

some of the other fields, where hard formations are encountered. Rotary drills can be used to advantage here, and drilling operations with this character of plant are much more rapid than with standard equipment.

"I have just had an experience that fully demonstrates this. At 6 o'clock Saturday evening I started drilling operations with a rotary on the Farms Boulevard tract, one mile northwest of the Bolsa Chica gusher, and by Wednesday noon had attained a depth of 1510 feet. I claim that is some record for drilling."

Believes Field to Extend

Edens believes the field will extend west rather than east of Huntington Beach, although qualifying his statement by saying that nobody knows definitely and that drilling alone will determine the point. The Standard Oil company is drilling one well west of the Bolsa Chica.

Among the companies engaged in drilling near Huntington Beach are the Union, working on the Newland lease, east of the city; the Standard Oil, which has ten outfits in operation; the Amalramated, with two on the lands of the Huntington Beach company; the Texcal, with one on the Dana Burke lease; West Whittier on the Turley place; Associated Oil, one on the east side of Reservoir Hill; Scott & Wooley, one on the Russell lease, north of the sun ar factory; W. H. Keck and associates, on a lease from the Huntington Beach company; Vista Del Mar Oil company, on the Shoemaker community lease.

The Vista Del Mar company is operating close to the ocean, its well being the furthest east of any in the field.

NORTH DAKOTA HAS RECORD CORN CROP

FARGO, N. D., Nov. 18.—North Dakota's corn crop totaled 17,562,000 bushels this year, according to the report of A. J. Suratt of the United States bureau of crop estimates. The total last year was 16,754,000 bushels. This year's yield was more than 7,000,000 bushels above the annual average of the state throughout its history. It was increased by good moisture conditions in the last stages of the growing season.

The big corn crop is significant of the change in agriculture that has taken place in North Dakota in the last decade. It was once a bonanza wheat country and corn was looked upon as a doubtful crop so far north. With the cutting up into small farms of the great estates of the wheat barons and the influx of settlers, North Dakota has become a diversified farming state and has definitely taken its place in the corn belt.

The corn yield does not give an adequate idea of the acreage planted to the cereal. A large acreage was harvested for fodder earlier in the season, to be used as silage on livestock and dairy farms. The North Dakota program of loaning money to farmers with which to buy cows has given a remarkable impetus to dairying throughout the state.

RULES FOR SENDING GIFTS TO SOLDIERS

WASHINGTON, Nov. 18.—Christmas packages for American troops on the Rhine must reach Hoboken by December 5 to insure delivery before Christmas day, the war department announced. They should be sent care of the general superintendent army transport service, Hoboken.

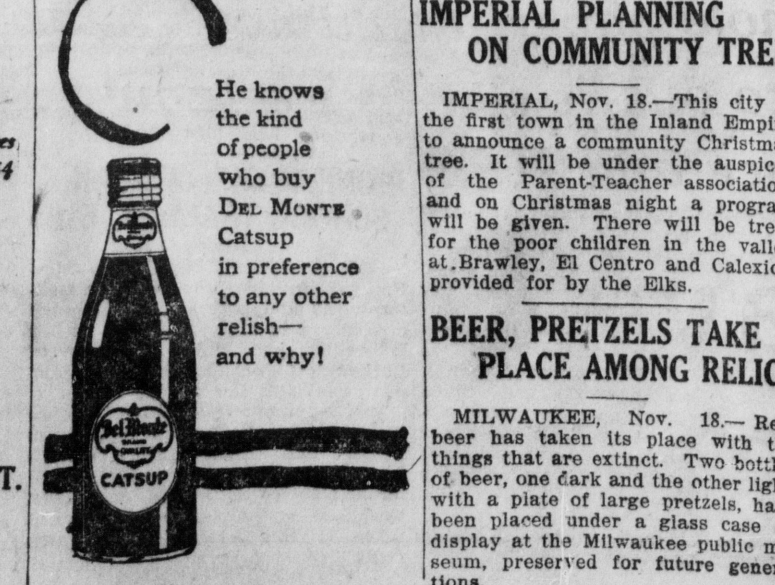

Parcels for men stationed in Hawaii and the Philippines should reach the depot quartermaster, Fort Mason, San Francisco, not later than December 5, while those for shipment to the Panama Canal zone and Porto Rico should be in the hands of the general superintendent, army transport service, pier 3, army supply base, South Brooklyn, N. Y., by November 30.

Packages for Germany must not exceed seven pounds in weight and 72 inches combined length and girth. Those to men on duty in the canal zone and insular possessions are limited to 20 pounds in weight and two cubic feet in volume.

A real mystery! Is it alive? What is it? Set J. C. Horton's windows Friday afternoon between 2:30 and 5:00, Main Street at Fifth.

Night school at O. C. Bus. College.

Ask your grocer

CHANGE WORKED AT SAN JUAN BY HIGHWAY

(Continued from page nine.)

feed a large number of the speedsters in a day.

Then there is another class of people who stop at San Juan Capistrano. They have a little more time. Some of them are traveling around seeing the country, and would like to stay for a night or two. They have time to sit down and have a meal served to them. If they had a place to stay which suited them, they would linger for quite awhile, and drink in the romance of the beautiful valley and the crumbling mission.

Fred Stoeffel decided to reach out for that trade. He bought a corner lot, a block from the depot, and has built a fine brick building on the property.

Fine Brick Building.

This building is by far the greatest factor in the changing of the appearance of the old village street into the bustling traffic-bearing street of today. Its two stories stand up in modern style, in contrast to the mission and the village adobe.

The plasterers, who are working on the building, are out of the way now, and concrete workers are finishing the entrance ways. Some of the ground floor storerooms will be ready for occupancy soon. It is rumored here that a Rock Bottom store has secured a lease on one of the stores. It is also rumored that Stoeffel himself will run one or two of the stores that will be in the building.

In the center of the building is the hotel entrance and lobby. It is understood that Stoeffel will make this an attractive lounging place for the traveler who stops in San Juan Capistrano long enough to smoke a cigar, to eat a meal or two, or to spend a night or a week. Comfortable furniture to rest in, and billiard tables to while away the time—these are to be features of the hotel's portion of the ground floor. The upstairs is being prepared for hotel purposes.

The building and its furniture when completed will represent no small investment—something like \$125,000 altogether, it is said. It will not be long until the building is ready for occupancy.

Forerunner of May Build.

John O. Forster for many years one of the best known citizens of this section, and whose family history is a history of San Juan Capistrano as far back as the 40's, is contemplating the erection of a two-story building on the corner where the old-time wooden store building stood. He said yesterday that he had not yet fully made up his mind as to what he would do, but he rather expects to go ahead with a building plan.

The old Mendelson hotel has a new roof. Several other old-time structures have been improved lately, and the whole town is getting itself ready to take care of the traveling public that comes its way.

But with all of its changed appearances, those who have long known and loved San Juan Capistrano find much of the spirit of the old days still. The champing of horses upon their bits, the sight of that prince of good fellows, Frank Forster, on horseback, a glimpse of herds of cattle feeding on the hillside, remind one that the whole valley is not given over to automobiles and tourists.

The ever-beautiful hills are here. The sycamores and the canyons, and the quiet restful atmosphere, that has won the hearts of people ever since the Franciscans picked upon it as a place for a mission, still reign in the valley.

STUDENT CHEATERS PLACED UNDER BAN

PHILADELPHIA, Nov. 18.—Students and faculty of the Wharton school of the University of Pennsylvania are enthusiastic over a new honor code for the conduct of examinations.

The new plan puts the student entirely on his honor and does not require him to sign a pledge of any kind. No proctors or instructors are in the classroom during the examination, nor is any watch put upon the student. The code depends entirely upon the co-operation of the undergraduates for its success. The most radical change over last year's system is found in the penalty prescribed under the new method.

Instead of being given a failure in the course, with the possible penalty of expulsion from the university, a student convicted of violating the code is completely ostracized from his classmates and placed alone under the proctor system for a period of one year. If at the end of that probation he has reformed a vote of the honor court may put him back under the honor system. In the meantime he is a marked man, and the student body will shun him like they would a leper.

Direct route to Los Angeles via Motor Transit Lines leaving the depot at 5th and Sycamore Street on half hourly schedule every day. The quickest route to Anaheim or Fullerton.

Attend McCormac's night school.

BEER, PRETZELS TAKE PLACE AMONG RELICS

MILWAUKEE, Nov. 18.—Real beer has taken its place with the things that are extinct. Two bottles of beer, one flat and the other light, with a plate of large pretzels, have been placed under a glass case on display at the Milwaukee public museum, preserved for future generations.

INSECTS RID LEMON ORCHARDS OF SCALE

SANTA BARBARA, Nov. 18.—Two hundred aphycus, an insect imported from South Africa to this country last October, were sent to various citrus groves in the Goleta district by Horticultural Commissioner Eugene Kellogg, and are expected to eradicate much of the black scale that has been destroying lemons in this county.

The insects sent out are some of those obtained from the famous L. Moneira lemon ranch in Ventura county, the largest in the world. This ranch has spent as much as \$60,000 a year in spraying and other methods to stop the encroachment of the black scale, and has met with little success. Recently, through the State Department of Agriculture, the owners of the Ventura Grove were enabled to get hundreds of the aphycus and put them out in the grove; the scale soon showed signs of losing its hold on the trees, and it is believed that the South African insect eventually will rid the grove of this destructive scale.

RILEY HOLDING DOWN WILDCAT SCHEMERS

California's policy of protecting the prospective settler against wild-cat colonization projects is receiving recognition in the East.

One of the most noted farm papers, "The Prairie Farmer" of Chicago, which has been the nemesis of several lurid colonization companies, recently printed an editorial concerning California's plan.

This editorial was based on the fact that California has passed a law creating the office of state real estate commissioner. State Real Estate Commissioner R. L. Riley, who now holds that office, has adopted the plan of placing a premium on legitimate projects.

The Prairie Farmer advises its readers, who are the Middle West farmers, all of them prospective California farmers not to buy land in any California colony unless it has the approval of Commissioner Riley.

The following is the editorial: "No matter how badly a state wants settlers, it cannot afford to get them under false pretenses. A land colonization scheme that lures settlers by false promises, loads them up with land at a price several times its real value, and then leaves them flat on their backs, is hurting the country as well as the settler."

"California, which has been the scene of many wild-cat land schemes, has established a state real estate department to protect land buyers. This department is endeavoring to correct abuses covering land colonization schemes," says R. L. Riley, commissioner. "We also assume the responsibility of passing upon all such promotions and authorize the use in publicity of a statement that the project has been submitted to the state real estate commissioner and is approved by him."

"The basis of approval is soil adaptability, water, title and method of sale. All advertising matter must be submitted to the commissioner for his approval. All salesmen must be licensed and a general supervision is maintained over the activities of the company. Unsound promotions will be attached by this department and an effort made to eliminate fraudulent land schemes."

"This plan is a good one. The weak point in it is that California cannot control Chicago or other outside companies selling California land. If such concerns are trying to do an honest business, however, they will doubtless have their project approved by the California real estate department before offering land for sale. We would advise our readers to have nothing to do with any California land scheme not so approved. We will be glad to secure from the California department a report on any land scheme in that state in which our readers are interested."

HONOLULU OPPOSES ANTI-JAPANESE BILL

HONOLULU, T. H., Nov. 18.—Condemning them as "radical and discriminatory," the Chamber of Commerce of Honolulu refused to endorse proposed territorial legislative bills which would abolish Japanese language schools.

The chamber took action endorsing the proposed bill, submitted by Japanese, Christian and Buddhist leaders, which would give to the Department of Public Instruction the regulation of text books, certification of teachers, and the limitation of language school hours to one daily or six weekly.

This bill will be submitted to the legislature, members said, and expressed the belief that it will mark the beginning of better feeling between Americans and Japanese in Hawaii.

COURT REFUSES TO DELAY SALE OF ROAD

OMAHA, Nov. 18.—Application by stockholders of the Denver and Rio Grande Railroad for a sixty-day postponement of the sale of the road, set for November 20, to satisfy a judgment in favor of the Equitable Trust company of New York was denied by Judge W. H. Sanborn of St. Paul and R. E. Lewis of Denver in Federal Court here. The opinion read by Judge Sanborn was followed by notice by Arthur M. Wickwire of New York, one of counsel for the stockholders, that an appeal to the United States Court of Appeals would be taken. The sale, however, which was scheduled to take place at Denver next Saturday under a judgment of \$36,000,000 obtained by the trust company, will be delayed to December 18.

UPLAND WOMAN, 96, IS LAID TO REST

UPLAND, Nov. 18.—Funeral services were held here for Mrs. Lillian Lina Thompson, 96 years of age, who bore the distinction of being the oldest white resident of this city. She died of pneumonia. She came to California 31 years ago. She moved from the Hemet district to Upland five years ago, to make her home with her granddaughter, Mrs. H. W. Hawkins. The body was sent to Hemet where a son, Robert Thompson, survives her. The Rev. R. C. Stone of Upland officiated at the services here.

BATTLESHIP FOR COLBY

BOSTON, Nov. 18.—Orders received here directing the battleship Florida, now at the navy yard, to proceed to Hampton Roads to take on Secretary of State Colby and the party of sixteen who will accompany him in his South American trip. The Florida will leave here Saturday.

LAY NEW PLANS FOR SOVIET IN GERMANY

BERLIN, Nov. 18.—Germany's "Neukommunisten"—new communists, as the extreme left of the independent party is called since the Halle convention—want to start putting Moscow principles into practice in Germany.

They believe with Sinowjew, Russian agitator and demagogue, that they can get a dictatorship of the proletariat and a soviet regime in Germany. And, their leaders say, they are prepared to undertake the fight at an early date. As this is written, the new communists are busy themselves with the task of seizing independent party treasuries and trying to get control of the party organs. They started in immediately after the Halle convention, grabbing the party paper in Halle, "Das Hallesche Volksrecht," threw out the right-wing editors and put in Moscow disciples. They likewise sent a force of strong-arm youngsters to the central office of the Independent party here to seize party documents. A courageous night watchman drove them off. This is merely the first step in the pro-Moscow fight.

They call themselves Independents still, just as the right wingers do. But, they propose to get the party machinery, especially the party organs like the influential "Freiheit" here under their control. Thereafter, according to their ideas, they will be ready for their battle against their "enemy, the capitalists."

If one takes the left-wingers' talk seriously, one can picture a dire and dreadful winter in Berlin and other sections of Germany.

But, the truth of the matter as seen by careful observers probably is not as black—or as red—as the new communists paint things.

They are regarded as strong enough to undertake some reign of terror at various points and times. But, on the whole, their strength is everywhere estimated as too small to upset the present order of things. Breitscheid of the right wing, for instance, foresees that the reds will attempt to put through their terroristic program, but he adds confidently that the moderates will have their innings directly afterward.

The creation of a new communist group in Germany has not the dire significance that many persons would attribute to it.

American authorities here are inclined to take this view of the situation: namely: 1—that the left wing formation merely separates the sheep from the goats; 2—the creation of a party favoring force and terror is not a new thing, for persons who now cast their lot with Moscow are the people who have always preached terror and practiced it when they had a chance. And, above all, is the general spirit of the German worker. He has

APARTMENT HOUSES PLAN TO BAR JAPS

DEL MONTE, Nov. 18.—The resolution of Thomas J. Christal, San Francisco, which opposed Japanese having any interest in apartment houses, was adopted at the organization of the Apartment House Association of California. Representatives from all parts of the state voted.

It was resolved also that application would be made to the State Real Estate Commission to revoke the license of any real estate broker selling or renting any apartment to Japanese or representatives of Japanese.

That present rentals would remain in vogue for at least another year, due to the high cost of building and furnishing materials, was the consensus of opinion during a general discussion.

Officers elected were: President, H. Fredericks, Oakland; first vice-president, Felton Taylor, San Francisco; second vice-president, Mrs. Eber, Los Angeles; treasurer, J. J. Fitzpatrick, San Diego; secretary, C. R. Desmond, Los Angeles.

SNEAK THIEVES ROB L. A. MAN OF \$8000

LOS ANGELES, Nov. 18.—Eight thousand dollars in cash and jewelry belonging to Hugo R. Johnstone, wealthy Pasadena, was stolen last week from the locker rooms of the exclusive Garden City, Long Island, Golf Club, it has been learned from New York. Johnstone's clothes were ransacked while he was bathing following several games of golf. It was announced that a number of members of the club were questioned by the club detective following the accident, but were later exonerated. It is believed that "two mysterious strangers" who had enjoyed a round of golf over the course and who had bathed at the same time Mr. Johnstone did were the ones who made away with the valuables.

11 DIE IN CYCLONE

ROME, Nov. 18.—Sicily was visited by a cyclone which caused eleven deaths in the town of Milmeri and destroyed a number of houses in Dagheria and other places, according to a Palermo dispatch to the Stefani Agency. The message adds that Palermo was flooded, causing the stoppage of the electric and water supplies.

Folks — can you really afford to own a car when you can rent one without driver for as little as \$3 a day? 7½ cents a mile. See Copson, 411 W. 4th. Phone 1426.

reached the point where things go a little more smoothly for him than for the last few years. Unemployment has decreased slightly since the first of September. The German workers as a whole want sanity and sound conditions rather than the doubtful experiment of Moscowism. Admissions of even the demagogue Sinowjew that Russia's internal plight is bad have given the workers food for thought.

POLY GLEE CLUB BOYS PLAN TO GIVE PROGRAM

Plans for a miscellaneous program, to be presented to the general public, are being made by the newly organized Boys' Glee club of the high school. The date has not been set but the entertainment probably will be given following the completion of the new auditorium.

Lynn Crawford has been elected president of the club, Don Hilliard, librarian and Ernest Saunby secretary and treasurer. All three of the boys compose a ruling committee for the club, which is self governing.

The club, and its activities, are under the supervision of Miss Lena Catherine Shepard, teacher of music in the high school. Two hours a week are spent in the class room for instruction in singing and the holding of the club meetings. The two hours is divided into two periods of an hour each.

"The material for a glee club is exceptionally good," Miss Shepard said. "Several good quartets should develop."

Harold Wright is the accompanist for the new organization. The members are as follows: Cecil Bircher, Coyle Briggs, John Clerk, Wayne Clark, Lynn Crawford, Robert Conklin, Clifford Conklin, Miles Crookshank, Leslie Denning, Lowell Elliot, Wilson Glasner, Don Hilliard, Alfonso Mendoza, Theodore Gilbank, Ernest Saunby, Archie Straw, Bryant Stearns, Raymond Simpson, George Van Volkenberg, Harold Wright and Carl Opp.

ONTARIO ELKS PLAN TO BUILD CLUBHOUSE

ONTARIO, Nov. 18.—Ontario Elks were given encouragement to proceed with plans for the establishment of a lodge in Ontario when E. J. Field, district field deputy of the B. P. O. E. of America, after looking over local conditions, gave his hearty endorsement to the plan. Field interviewed a number of prominent Elks and others while here and expressed the belief that Ontario would not only support an Elks' Club, but that there was a demand for such an institution among many of the substantial business men of the city.

Dispensation from the grand lodge permitting a local organization is expected about the first of the year and in the meantime West End Elks, of which there are more than 200, are making the club rooms recently vacated by the Current Events club in the Ontario National Bank building their temporary headquarters.

Enclosed cars, day or night, city or country trips. Crown Stage Co. Phone 925.

NEGRO PORTER ROUTS TRAIN BANDIT GANG

SALINA, Kan., Nov. 18.—Dave Turner, porter on a sleeping car, is given credit for the failure of the bandits who held up Union Pacific train No. 14 near Denver, according to members of the crew arriving on the train in Salina.

Turner, they said, had been lined up with other trainmen, but when the bandits headed for the mail car, he dove under the train, obtained a gun and began firing. The bandits then fled. Passengers bore out the story.

NEW ZEALAND FRUIT CROP GOOD, REPORT

AUCKLAND, Nov. 18.—According to late information the prospects for New Zealand's coming fruit season are good, and this is especially true of stone fruits, some of which have advanced far enough to make it quite clear that the crop is exceptionally promising. As yet it is too early to give any very definite estimate in regard to the apple and pear crops further than to state that everything is favorable for a bumper crop for these fruits.

The cold winter has seriously affected some citrus fruits, especially lemons and oranges in some cases. Lemon trees have been planted of late more numerous than heretofore, but this winter has given this industry quite a setback.

A good strawberry crop is expected this season. It is stated that double the number of plants were placed last autumn, and that their appearance is very favorable at present. A few berries are already ripened in some localities about Auckland, and the crop should be coming in freely by the middle of October.

COURSES IN FARMING ARE GIVEN IN ARMY

Under the hurry-up telegraphic orders sent out by the War department on November 9, all recruits who now enlist in the army for a course in farming will be sent to the vocational school of agriculture at Camp Travis, Texas, unless the soldier desires otherwise. The famous Second division, affectionately known as the "Indian Heads," which saved Paris by stopping the Hun along the Paris-Metz road at Belleau Wood and Vaux, is on duty there.

The agricultural schools maintained by the Second division are among the best-equipped in the army. Courses are provided in horticulture, agronomy, dairying and animal husbandry, and a fine irrigated farm has been bought, where soldier students may be turned into scientific farmers.

The course in horticulture includes theoretical and practical work in the growth of fruits, flowers, and ornamental shrubbery. In agronomy the student takes up the study of soils, with special reference to irrigating agriculture. Great artesian wells supply the water necessary.

Instruction in dairy husbandry includes types and breeds of dairy cattle. Practical work is given in judging stock, and visits are made by the soldiers to famous cattle farms near by. The school farm also provides practical work in animal husbandry.

To the average farmer it may seem strange that Uncle Sam's soldiers are engaged in making the desert bloom. But this is exactly what they are doing. Adjacent to the great military reservation is a 400-acre farm, under the supervision of Geo. G. Snow, who comes from Mississippi Agricultural and Mechanical college, where he taught for twelve years. Assisting Mr. Snow is Joel I. McGregor, formerly dairy specialist for the Houston Chamber of Commerce, in charge of the department of animal husbandry.

What is it? Ask J. C. Horton; it's got him mystified, too. See his windows Friday afternoon between 2:30 and 5:00, Main Street at Fifth.

OIL TO BE SOUGHT AT WEST NEWPORT?

Extensive prospecting for oil at West Newport will result from a deal just closed there, in the opinion of those who are familiar with the transaction. A syndicate of Long Beach men, headed by George F. Craig, of the Craig Shipbuilding company, Saturday made final payment on the purchase price of seventy acres at West Newport. The property was bought from C. L. Lancaster. Twenty acres had been subdivided into beach city lots, the remainder being in acreage.

It is understood the syndicate is composed of men who have ample money to carry out any project they might undertake.

Activity of the Long Beach syndicate at West Newport, coupled with the fact that Long Beach men are identified with the syndicate which recently purchased the 105-acre island of the Pacific Electric company in Newport Bay, has caused a revival of the rumor that the island was purchased with a view to attempting the development of oil.

A prominent resident of Newport Beach today stated that he believed that the island would be prospected for oil, but that the new owners were actuated in the purchase by possibilities of industrial development, rather than because of oil possibilities.

BURBANK REJECTS ANNEXATION PLAN

BURBANK, Nov. 18.—By a vote of 847 against 92 for, the citizens of Burbank defeated a proposal to annex the city to Los Angeles and voted to continue running their own affairs. As a result of the election Burbank turned out in a body to celebrate, a band, parade and fireworks being part of the night's festivities.

The vote was polled from a registration of between 1300 and 1400. The returns from Precinct No. 1 show 565 against annexation, 71 for; Precinct No. 2, 282 against, 21 for. The proposal was brought before the voters as a result of petitions circulated by J. W. Pawkes, who, on numerous occasions, is said to have assailed the management of the city's affairs and to have charged officials with laxity in the discharge of their duties. The petition calling for a special election to vote on the annexation measure had 432 signers.

\$20,000 IS PAID FOR RANCH BY NEBRASKAN

C. S. Cole, a recent arrival from Grand Island, Neb., has purchased of Myron Warner his eight-acre ranch home on Ritchey street. The tract is planted to Placencia perfection walnuts and is said to be a fine producer. Cole will take possession at once.

The transaction was made by the firm of Cole & Hardy, which also reports the sale of the Henry Evans property, 624 South Flower street, to E. Heaston, of Boise, Idaho, for \$5700, and a lot on Hickey street to John Torres, for \$350.

PASADENANS STAND FOR OPEN SHOP PLAN

PASADENA, Nov. 18.—The Pasadena Merchants' Association has declared for the open shop in industry. The association went on record at the annual meeting by adopting the following resolutions:

"Resolved, that we unalterably disapprove of strikes or lockouts which in any manner interfere with the peaceful enjoyment of the rights and privileges of the general public. That we uphold the right of every person to sell his services to or to purchase the services of others, unhampered in any form or manner."

The resolutions were adopted after a discussion during which a motion to table the resolution was voted down by a large majority.

H. L. Miller, W. A. Barnes, H. R. Slayden, George V. Baer, E. L. Pauley, E. H. Munson, John Barnett, H. L. Dickson and George F. Warwick were elected directors for a year.

INJURIES ARE FATAL TO POMONA CYCLIST

POMONA, Nov. 18.—After lying unconscious in the Pomona Valley hospital since last Saturday night, when his skull was fractured in a automobile-motorcycle collision, David A. Harris, of Tana, Iowa, died yesterday. He never regained consciousness during the three days he was at the hospital.

The accident happened when Harris and two companions, his brother, Dewitt Harris and D. F. King, were on their way from San Bernardino to Los Angeles. The motorcycle and side car on which they were riding, collided with an automobile driven by R. R. Archer of Pomona. David Harris, who was piloting the motorcycle, was thrown head first against the side of the automobile in the impact, and his skull fractured. The other two were thrown clear of the smash, and escaped with bruises and cuts. The trio had just arrived in California after making the trip from Iowa on motorcycles.

The remains will be shipped to Tama, Iowa, for burial.

At 7½ cents per mile, 5 people can travel for less than bus, train or street car fare, not to say anything about the added convenience and comfort in going and coming when and where others don't go. When taking your next day's outing, remember Copson rents cars without drivers.

ASK FOR RECEIVER IN ALIEN LAND CASE

VISALIA, Nov. 18.—Indications here are that the state will lose the second round in the alien land law suit instituted here to dispossess H. Sumida of property worth a half million dollars on the grounds that he is holding it illegally. Sumida is a Japanese.

When attorneys for the state argued the motion for the appointment of a receiver to take charge of Sumida's property pending a settlement, before Superior Judges Allen and Wallace, sitting together on the case, they drew a suggestion from both judges that they seek a compromise on the matter of a receivership. Ruling on the motion was withheld to permit action on this suggestion.

Predictions were made that within a short time a ruling will be handed down throwing out the demurrer of Sumida to the state's complaint.

The state won the first point settled in the case several weeks ago when the court refused to transfer the action to the federal court.

Beginners' class meets Monday and Thursday at 7 p. m., at home of Mrs. Olive Lopez, 519 West Fifth. Terms \$4 for eight lessons, in advance.

MAN BEDRIDDEN FOR THIRTY YEARS DIES

NEW YORK, Nov. 18.—The most remarkable invalid in the world is dead. He was Charles Noel Douglas, who had been a bedridden cripple for thirty years. Yet pneumonia was the immediate cause of his death at his home, 1299 Park Place, Brooklyn.

Douglas was the author of 700 lyrics, a volume of poems and several other books; he was editor of five magazines with 6,000,000 readers; he wrote about half the skits and parodies you see in vaudeville; he had produced a dozen plays written for amateurs he did all his work in a bed of pain—yet he was the most cheerful man in all New York.

JEANNETTE RANKIN IS GIVEN NEW JOB

HELENA, Mont., Nov. 18.—Miss Jeannette Rankin of Montana, the first woman to sit in the United States congress, has been appointed field secretary of the National Consumers' League, of which Newton D. Baker is president.

Miss Rankin, it is announced, will devote herself to promoting legislation for the protection of wage earners and women and minors.

WOOLEN PLANT GOES ON WITH REPAIR WORK

Equipment at the Mission Woolen mills still is undergoing repairs and the management does not expect to be in position to resume operations until after the first of the year.

The date upon which the plant will again become a hive of industry depends upon the market situation. Jobbers are holding back on orders at this time and it is probably will be the first of the year before they make contracts for new goods.

The company is anticipating an exceptional season, once it resumes work, and in the meantime is giving the plant a thorough overhauling so that there will be no delay when the wheels are again set in motion.

KELLY PROVES EASY FOR BENNY LEONARD

NEW YORK, Nov. 18.—Benny Leonard, lightweight champion, stopped Eddie Kelly in the fifth round of a scheduled ten-round bout here last night. After Kelly had been floored twice by left hooks to the jaw, Referee Jack Kelly stepped between the two and waved Leonard to his corner. Kelly had to be carried to the chair.

The Patented Essex Motor Made These Marks Possible

In 4 Trips Across America Essex 4 Times Breaks Record

San Francisco to New York—3347 miles, in 4 days, 14 hrs., 43 min.

New York to San Francisco—4 days, 19 hrs., 17 min.

San Francisco to New York—4 days, 21 hrs., 56 min.

New York to San Francisco—5 days, 6 hrs., 13 min.

Sets 50-Hour Record

On Cincinnati Speedway Essex travels 3037 miles in 50 hours—an official record, never equalled.

Holds 24-Hour Dirt Track Mark

An Essex, previously driven 15,000 miles sets world's 24-hour dirt track mark of 1261 miles. Essex also holds world's 24-hour road mark of 1061 miles.

The Essex motor is patented. No other maker can use it.

And Essex performance, so enthusiastically admired by all motorists is the product of that exclusive invention.

Its ability is not reflected merely by the noted records which Essex has inscribed in motor history, but even more substantially in the dependable service on which nearly 50,000 owners rely with unchanging confidence.

They know Essex creates a new standard of light car capacity, in a totally new type. And it cannot be copied. Do not forget that. No other can use its motor, or the principle which accounts for its superiority.
